ACCOUNTING: Text and Cases, 10/E is a 28 chapter book. Chapters 1-14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that largely make up the end-of-chapter material are a combination of classic Harvard style cases, as well as extended problems. New to this edition is the inclusion of 2-3

Management Control Systems 10/e builds on strengths from prior editions by offering a rich diversity of cases balanced with current material. The primary market for Management Control Systems is an MBA level elective in control systems. The text may also be appropriate for advanced managerial accounting courses and/or MBA-level cost accounting courses with an emphasis on management control. The text is organized to develop insights and analytical skills related to how managers go about designing, implementing, and using planning and control systems to implement strategies.
