Introduction The Alfa 166 replaced the 164 as the Italian marquell's executive car. It is a truth univerally acknowledged that Italian's have never done big luxobarges as well as their German counterparts! but all those ministers and heads of state need something to be driven around in and the platform shared 166/Lancia Kappa was it.

Julian Edgar on the 2000 Alfa Romeo 166: The Alfa 166 is a \$76,000 car that has a drivetrain far less refined, far less driveable and noisier than a \$48,000 Avalon Grande, let alone a \$29,000 Magna Executive. With at times the worse throttle response of any car that we have ever driven, the supposedly hi-tech auto transmission is appallingly matched to an engine that develops peak torque at a sky-high 5000 rpm, with peak power just another 1200 rpm higher in the rev band.

Now in paperback for the first time, here is the classic version of a car lover's fairy tale: You look into an old abandoned barn or garage or warehouse--and there's the car you've searched for your whole life. Here are the true stories of people who found their dream cars in the most unlikely places: A man finds one of three King Cobras ever built in a junkyard in South Carolina; another discovers a rare Delahaye in a barn in the former Czech Republic; yet another answers an obscurely written ad in a local paper to discover a Triumph TR3 that had run the Daytona 24 Hour race in the early 1960s. The list goes on and on, and the stories never get old. Relive the excitement, glory in the astounding discoveries, and revel in the cars that keep dreams alive. See Tom Cotter, author of Motorbooks' In the Barn series, interviewed by Jay Leno on JayLenosGarage.com: <http://www.jaylenosgarage.com/video/jays-book-club-the-hemi-in-the-barn/1237422/>

"Amazing self-build techniques for builders of supercars, kit-cars, racing cars, hot-rods and custom cars. Includes glassfibre moulding techniques, vacuum-forming polycarbonates, creating interior trim, adapting standard mass-production components and much, much more."--Lp.
