Alltel Wireless was a wireless service provider, primarily based in the United States. Before acquisitions by Verizon Wireless and AT&T, it served 34 states and had approximately 13 million subscribers. As a regulatory condition of the acquisition by Verizon, a small portion of Alltel was spun off and continued to operate under the same name in six states, mostly in rural areas.

Keeping your financial house in order is more important than ever. But how do you deal with expenses, debt, taxes, and retirement without getting overwhelmed? This book points the way. It's filled with the kind of practical guidance and sound insights that makes J.D. Roth's [GetRichSlowly.org](http://GetRichSlowly.org) a critically acclaimed source of personal-finance advice. You won't find any get-rich-quick schemes here, just sensible advice for getting the most from your money. Even if you have perfect credit and no debt, you'll learn ways to make your rosy financial situation even better. Get the info you need to make sensible decisions on saving, spending, and investing Learn the best ways to set and achieve financial goals Set up a realistic budget framework and learn how to track expenses Discover proven methods to help you eliminate debt Understand how to use credit wisely Win big by making smart decisions on your home and other big-ticket items Learn how to get the most from your investments by avoiding rash decisions Decide how -- and how much -- to save for retirement

As you'd expect of Apple, the iPhone is gorgeous. iPhone: The Missing Manual is a book as breathtaking as its subject. Teeming with high-quality color graphics, each custom designed page helps you accomplish specific tasks -- everything from Web browsing to watching videos. Written by New York Times columnist and Missing Manual series creator David Pogue, this book shows you how to get the most out of your new Apple iPhone. The name iPhone may be doing Apple a disservice. This machine is so packed with possibilities that the cellphone may actually be the least interesting part. The iPhone is at least three products merged into one: a phone, a wide-screen iPod and a wireless, touch-screen Internet communicator. The iPhone's beauty alone may be enough for you to dig for your credit cards, but its Mac OS X-based software makes it not so much a smartphone as something out of the film "Minority Report." The real magic, however, awaits when you browse the Web. You get to see the entire Web page on the iPhone's screen. All of this is cooked up with Apple's traditional secret sauce of simplicity, intelligence and whimsy. Written by New York Times columnist and Missing Manual series creator David Pogue, iPhone: The Missing Manual shows you everything they need to know to get the most out of your new Apple iPhone. Full of humor, tips, tricks, and surprises, this book teaches you how to extend iPhone's usefulness by exploiting its links to the Web as well as its connection to Macs or PCs; how to save money using Internet-based messages instead of phone calls; and how to fill the iPhone with TV shows and DVDs for free.
