Vocabulary from Classical Roots can be easily incorporated into any curriculum. Use the Student Books to teach word strategies as well as word etymologies. Assign exercises as independent or small group work, or incorporate them into whole class instruction. Organized thematically; Abundant literary, historical and geographical references; 2 roots and 8 15 words in each lesson; Dictionary-style definitions; Challenge Words enhance vocabulary development; and Expository and creative writing prompts in all review lessons. Tests Presented in reproducible Blackline Master format with answer keys, the Tests add a valuable assessment resource. They feature multiple-choice questions that are compliant with standardized test formats. Types of questions include Sentence Completions, Vocabulary Application, and Analogies. Teacher s Guide and Answer Key A powerful tool that complements, extends, and enriches the series, the Teacher s Guides provide scaffolded instruction for individual learning needs. A variety of written and oral word games helps students build word-learning strategies and gives them practice using the familiar and key vocabulary words from each lesson."

Ideal for students mastering a growing content-area vocabulary in social studies, science, and mathematics multisyllabic Greek- and Latin-based words help students unlock the meanings of literally thousands of words.

Teacher Guide for Book 1 of the Principles of Mathematics - Biblical Worldview Curriculum for junior high! Math is a real-life tool that points us to God and helps us explore His creation, yet it often comes across as dry facts and meaningless rules. Here at last is a curriculum that has a biblical worldview integrated throughout the text and problems, not just added as an afterthought. The resources in the Teacher Guide will help students master and apply the skills learned in the Student Textbook. What does this Teacher Guide include? Worksheets, Quizzes, and Tests: These perforated, three-hole punched pages help provide practice on the principles taught in the main student textbook. Answer Keys: The answers are included for the worksheets, quizzes, and tests found in this Teacher Guide. Schedule: A suggested calendar schedule is provided for completing the material in one year, though this can be adapted to meet individual student needs. There is also an accelerated schedule for completing the material in one semester. Are there any prerequisites for this course? This curriculum is aimed at grades 6-8, fitting into most math approaches the year or two years prior to starting high school algebra. If following traditional grade levels, Book 1 should be completed in grade 6 or 7, and Book 2 in grade 7 or 8. In Book 1 students should have a basic knowledge of arithmetic (basic arithmetic will be reviewed, but at a fast pace and while teaching problem-solving skills and a biblical worldview of math) and sufficient mental development to think through the concepts and examples given. Typically, anyone in sixth grade or higher should be prepared to begin. The focus of the course is actually learning math for life, not simply preparing to pass a test.

Ka Lei Ha'eoheo: Beginning Hawaiian is a culturally oriented Hawaiian language textbook. Its grammar lessons include the relationship between the language and the Hawaiian world view. The book's dialogs are drawn from contemporary Hawaiian family life. Extensive classroom testing was used in developing Ka Lei Ha'eoheo. Although it was designed for college use, it is also a handy resource for high schools and individuals, particularly because its companion volume, Ka Lei Ha'eoheo: Teacher Guide and Answer Key provides English translations and answers to the exercises. The text's lively appeal is further enhanced with line drawings.

These books show you how you can: - foster reflective, independent thinking in your class - boost the number of students who actively participate - prevent the discussions from falling flat or degenerating into bull sessions This volume features 18 student-centered lesson plans and include answer keys for teachers. Each lesson plan engages students in active learning.

This full-color resource makes focusing on grammar and writing conventions fun and interesting for Level 4 students with engaging illustrations and photographs. The tear-out pages of this student workbook provide guided practice activities and special TIME FOR KIDS® Tips for Writers with pertinent information to reinforce the basic building blocks of writing.
