Buy Reader's Guide to American History (Reader's Guide Series) 1 by Peter J. Parish (ISBN: 9781884964220) from Amazon's Book Store. Everyday low prices and free delivery on eligible orders.

This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective. Leading geographers, building on current scholarship in the field, explore five central themes. Part I explores the settling and resettling of the continent through the experiences of Native Americans, early European arrivals, and Africans. Part II examines nineteenth-century European immigrants, the reconfiguration of Native society, and the internal migration of African Americans. Part III considers human transformations of the natural landscape in carving out a transportation network, replumbing waterways, extracting timber and minerals, preserving wilderness, and protecting wildlife. Part IV focuses on human landscapes, blending discussions of the visible imprint of society and distinctive approaches to interpreting these features. The authors discuss survey systems, regional landscapes, and tourist and mythic landscapes as well as the role of race, gender, and photographic representation in shaping our understanding of past landscapes. Part V follows the urban impulse in an analysis of the development of the mercantile city, nineteenth- and twentieth-century planning, and environmental justice. With its focus on human-environment interactions, the mobility of people, and growing urbanization, this thoughtful text will give students a uniquely geographical way to understand North American history. Contributions by: Derek H. Alderman, Timothy G. Anderson, Kevin Blake, Christopher G. Boone, Geoffrey L. Buckley, Craig E. Colten, Michael P. Conzen, Lary M. Dilsaver, Mona Domosh, William E. Doolittle, Joshua Inwood, Ines M. Miyares, E. Arnold Modlin, Jr., Edward K. Muller, Michael D. Myers, Karl Raitz, Jasper Rubin, Joan M. Schwartz, Steven Silvern, Andrew Sluyter, Jeffrey S.

Smith, Robert Wilson, William Wyckoff, and Yolonda Youngs

A history of the United States in the twentieth century, featuring sociological and cultural events, as well as strictly historical, and using many pertinent literary excerpts.

Summary of Destiny and Power: by Jon Meacham | Includes Analysis Preview: Destiny and Power: The American Odyssey of George Herbert Walker Bush by Jon Meacham is a biography of George H.W. Bush, the 41st president of the United States, who served from 1988 to 1992. The author argues that as president and as a politician, Bush used prudence and compromise to an extent that would seem out of place in today's era of highly partisan US politics. George H.W. Bush had a varied career before winning the presidency: he was a Navy pilot, oilman, congressman, ambassador to the UN, envoy to China, head of the Republican Party, and later director of the CIA. In the executive branch, he first served as vice president of the United States under Ronald Reagan for eight years before beginning his own presidency... PLEASE NOTE: This is a summary and analysis of the book and NOT the original book. Inside this Instaread Summary & Analysis of Destiny and Power: • Summary of book • Introduction to the Important People in the book • Analysis of the Themes and Author's Style

O'Bruni: An African-American Odyssey Home? is an ethnographic study that follows an African-American to Africa, his 'ancestral homeland'. This study follows Dr. James Thomas Jones III as he travels throughout Ghana in pursuit of answers regarding his place of origin, a place that most people would refer to as home. Dr. Jones soon discovers that connecting with his 'ancestral homeland' is more problematic and convoluted than he could have ever imagined as he finds that his Ghanaian kinsmen possess a plethora of diverse and divergent thoughts regarding African-Americans and their desperate attempts to reconnect with the 'motherland' of Africa. This story ultimately leads to an investigation of identity, racial constructs, nationalism, and 'home'. What Dr. Jones ultimately learns is that there are no easy answers to be found on the continent of Africa and maybe, it is not Africa and her inhabitants who need to have their souls healed.

An immigrant's son shuns his heritage and his homeland, only to see them come to dominate headlines in a manner that forces him to come to a deeper understanding of himself and his world. This notable collection of personal stories and cultural insights illuminates anew the grand American immigrant experience. Just as notably, Lessons from the Holy Wars is invaluable for anyone seeking insight into the encounter-or collision-of Islam and the West. Filled with wonder and wit, it offers a revealing perspective on the events of our day.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

My American Odyssey - From Windrush to the Whitehouse' charts the life of a Black British boy, growing up in 1980s England, and travelling around America, sharing the cultural, historical and, at times emotional, links and contrasts between the two countries.Roger Griffith is a successful social entrepreneur and local radio personality - also known as the G-Man - with 24,000 listeners every week on a community radio station he (co-owns) called Ujima Radio 98FM. He has a passion for sharing stories, observations and insights on a perspective seldom shown - the special relationship between America and Britain, as seen through a black man's eyes.In 'My American Odyssey', Roger documents the experiences of his parents generation - known as the Windrush Generation - arriving from the Caribbean to help rebuild the 'Motherland' after World War II and his generation the first generation of Black-Britons born in the UK. He reflects on growing up within two cultures, through Thatcher's turbulent 1980s to the present day - with a black man as the US president - Roger explores the influence of Black-British and African-American culture through the prism of the civil rights struggle and the life and work of Dr Martin Luther King.In sharing his story, an evocative combination of travelogue, history, politics and social commentary, Roger celebrates the lives of African-Americans, West Indians and Black Britons, from their roots of origin to the present day, as a new era of hope is not just dawning but continues to rise.

The African American Odyssey is a literary compilation of a portrait combined with a strong compelling chronological history and discussion of the African American plight, from an African American perspective. It also entails many significant aspects of African American struggles, achievements and wondering about in a country that adamantly refuses to see African Americans. Propelled by enthusiasm, anguish, and deep concern for the magnitude of social and economic despaired conditions African Americans find themselves in today, the author is obsessed with confronting the pervasive challenges of systemic and institutionalized white supremacy, unjustified evil racist oppression, suffering and unnecessary social and economic misery perpetrated against African Americans by a hatefully hostile government determined to marginalize or exterminate them. Exasperatingly, Muhammad expressively takes the reader on a journey through centuries of convoluted wondering while illustrating to them, the events that produced the African American experience. He conclusively shares his hope, skepticism and cautious optimism for the future of African Americans.

A history of the United States in the twentieth century, featuring sociological and cultural events, as well as strictly historical, and using many pertinent literary excerpts.
