A Concurring Opinion A review of the book Apostate by Kevin Swanson I have never struggled so much with my thoughts on a book like I did with Kevin Swanson's Apostate. When I saw that the book was coming out I was very excited, it was the kind of book I love to read. It is one part critique of culture, one part history book, and one part indictment on the philosophies of western culture.

Apostate by Kevin Swanson - Goodreads

Apostate is a story of demonic possession, insanity, suicide, mass-murder, adultery, homosexuality, cultural and social revolutions, and unbridled, maniacal apostasy. It is the story of apostasy on a massive scale. But it is also a story of hope and victory for the last men standing in the ashes of Western civilization.

Of course this dishonours the memory of the Mayflower Pilgrims who were true Separatists and fleeing people just like Kevin Swanson who believed the Church should be wedded to power. He has hijacked their heritage. Many have confused the Pilgrims with the later Puritans who arrived in 1630 and formed the Massachusetts Bay Colony.

Whatever happened to Western civilization? Christians have lost ground in every cultural area of leadership and influence in Europe and America since 1700. This is an indubitable fact. The remaining Christians search for an explanation. They want to know how it happened. Apostate is a story of demonic possession, insanity, suicide, mass-murder, adultery, homosexuality, cultural and social revolutions, and unbridled, maniacal apostasy. It is the story of apostasy on a massive scale. But it is also a story of hope and victory for the last men standing in the ashes of Western civilization. It will be a testimony to the inevitable triumph of Jesus Christ over the great men of renown who tried to oppose the King of kings and Lord of lords. This is the account of the most exciting story in all of human history. Something truly remarkable occurred when Jesus Christ rose from the dead and gave His disciples a great commission. The world would never be the same again. Kevin Swanson takes the reader through the 2,000-year, worldwide saga of this epochal mission to the world. From Judea to Rome, Ireland, Denmark, China, Japan, Uganda, New Zealand, and to the uttermost parts of the earth, the light of Christ shines into the darkness, transforming every nation throughout the centuries. This book describes the condition of the nations before Jesus came, and follows the missionary work that confronted formidable strongholds and brought about the transformation of nations. This book tells the story of the Lord Jesus Christ's transforming influence in countries across every continent over the last 2,000 years.The world will never be the same . . . "All authority has been given to Me in heaven and on earth. Go therefore and make disciples of all nations..." (Matt. 28:18) The history of Christianity is even more important to understand than American or world history because it provides us with a better foundation for our own faith. Sadly, many Christians never formally study the history and growth of the church, depriving themselves of knowledge that would strengthen their faith. Taking the World for Jesus makes such a study easy. This book tells the story of the Lord Jesus Christ's transforming influence in countries across every continent over the last 2,000 years. Provides a very accessible overview of the history of Christian missionsGives inspirational accounts of the challenges Christianity has experienced and overcomeShares an overview of the current state of Christianity and missions work today From Judea to Rome, Ireland to Denmark, China to Uganda, and to the uttermost parts of the earth, the light of Christ shines into the darkness, transforming every nation throughout the centuries. In an age of Western apostasy, it should come as no surprise to find Western culture leading the way. This pungent little book is a challenge to modern Christians not to capitulate to post-Christian worldviews and cultural expressions. Kevin Swanson doggedly refuses to separate culture from worldview, pressing his readers for repentance and a change of worldview.

As long as Christian liberal arts programs fail to engage the challenges to Christianity in the battle of ideas, they play a part in the continuing decline of the faith in the Western world. It is extremely dangerous to accept the "great" thinkers and writers uncritically, whether it be Karl Marx, Ralph Waldo Emerson, or Nathaniel Hawthorne. The great thinkers and the liberal arts programs have influenced millions of young people to abandon the Christian faith over the centuries. Every Christian student should be familiar with the ideas and the writings that have formed the modern world and that subsequently undermined the Christian foundations in the West. Young people must also be well-versed and well-equipped to engage in the battle of worldviews before they graduate from high school or college. That is why this curriculum is so desperately needed.

Abortion, feminism, gay marriage, homosexuality—these are the hot-button issues in the post-Christian, apostate, Western world. One by one, entire denominations are subscribing to these politically correct sins that form the zeitgeist in the West. Contemporary Christian music stars are endorsing homosexual marriage. Presbyterians, Anglicans, Lutherans, and Mennonites are ordaining homosexual clergy. At least one third of the world's population has been aborted since 1960, largely due to the feminist movement of the last century. Millions of young women from Christian homes are trained in feminism by universities across the country. After the damage has been done by the false worldviews of humanism, existentialism, feminism, and sexual and gender autonomy, will there be any Christian churches and Christian families still standing? Who will keep the faith, and who will keep the commandments of God? These are questions of monumental import. May God use this little book to solidify the faith of many over the next century.

There is a wealth of great literature to study in the history of man, some written by Christians and some by non-Christians. However, the Christian student should direct special attention to literature produced by Christians. The empires of man will always crumble and fall, but the kingdom of Jesus Christ will continue forever. This collection covers five of the greatest life narratives of all time. A thorough study of these great books will help students understand the life, theology, and worldview of some of the greatest Christian men in church history. Sit at the feet of some of the best teachers God has given to His church. Augustine Confessions: (354-430) Augustine is perhaps the most influential thinker of the first thousand years of Christian history. This fifth-century Christian wrote Confessions as a biography in the form of a prayer to God. Patrick Confessions: (387-493) Amid the chaos following the collapse of the Roman Empire, Patrick, a man of legendary faith, led the way to the evangelization of the wild and pagan tribes of Ireland. John Knox History of the Reformation in Scotland (c.1510-1572) Few men have lived in more dangerous times than John Knox of Scotland. Yet he led a reformation movement in a very dangerous land, leaving a testimony for generations to come. John Bunyan Grace Abounding (1628-1688) Great men tell great stories because they live them. This is the case with John Bunyan, whose personal testimony, Grace Abounding, records one of the most tumultuous and agonizing spiritual journeys. John Paton Autobiography (1824-1907) The kingdom of God is only taken by force by courageous men of faith like John Paton, whose missionary work among the cannibals in the New Hebrides is nothing short of legendary.

Teacher Guide for the 18-week, 11th-12th grade history course! The vital resource for grading all assignments from the Freedom: The History of Western Liberties course, which includes: Instructional insights enhanced with worksheets and additional readings, all from a Christian perspective. Critical thinking and vocabulary building activities that helps students to acquire knowledge and understanding. Overview: This one-semester course provides students with the opportunity to study the concept of freedom in-depth. The course enables students to look at freedom from a biblical context, with special attention devoted to examining exactly what the Bible says about freedom and Scriptural examples of defenders of freedom. Students will also learn about historical Christian freedom fighters and the tyrants they battled. In addition to the history of freedom, students will also spend considerable time studying contemporary threats and challenges to liberty. Students will learn of how tyranny can seep into numerous institutions of everyday American life, including government regulations, debt, public schools, healthcare, and more. This course will also equip students with the ability to combat these challenges. Features: The calendar provides daily sessions with clear objectives, worksheets, and exams all based on the course book.

Course Objectives: Students completing this course will Explore the history of the ChurchLearn about the lives of courageous missionaries around the worldUnderstand the importance of spreading the GospelStudy current global missions needsAcquire geographical knowledge Vocabulary Study: Having a good vocabulary is essential for students to be effective communicators, thinkers, and readers. It is a skill that is applicable to any academic discipline, including history. Students should be encouraged to look up words that they do not know when they encounter them while reading. Students will not do formal vocabulary activities in this course, but a glossary has been provided for words that the students may find difficult or unfamiliar in the assigned reading. Upon encountering an unknown word, the student should consult the glossary provided at the back of the teacher guide and/or a dictionary. Students should also be aware that many of these words have multiple meanings. It is important that students learn to use the context of these words in the text to help understand their meanings. Students are encouraged to maintain a list of these words and review them periodically throughout the course. Review could include writing the words and their definitions on index cards to use as flashcards, having students create their own dictionaries, or using the words in sentences. This component of the course is entirely optional, however, and not built into the schedule. Using Vintage Books: One of the books included in this course, Adventures in Missionary Heroism, was originally published in the early 1900s. There is real value in reading vintage books like this one. These historical texts not only provide us with information but also insight into the attitudes and perceptions of people from that time. It is important to remember that vintage books can express attitudes and use terminology that is no longer considered appropriate. When students come across these moments in vintage books, it is the perfect opportunity for them to have a discussion with their teacher about this material. Teachers and students can use this opportunity to analyze the differences in attitudes between now and then, as well as to review Biblical principles regarding issues like racism. These conversations will provide students a context for understanding the attitudes expressed in the text, as well as help them develop their own skills of discernment and critical thinking when it comes to materials they are reading.

Of all of the possible curriculum choices used for the education of our children, the most important textbook of all is that which God Himself presented in the book of Proverbs. This book is the core curriculum. It is God's book on how to live life on planet earth. To disregard this book in the education of our children would be a colossal error.With this Study Guide on the book of Proverbs, you will learn God's basic truths as they speak to the classical philosophical divisions of epistemology, metaphysics, and ethics. You will grapple with the tensions of determinism and human responsibility. You will find an entire system of priorities for life's ethics and purposes. You will find the basic constituents of a biblical social system, as well as principles for sound economics, government, and general business management. The book includes both a proper theology, anthropology, and human psychology. Every education program will give you a system of categories by which you understand life, history, truth, ethics, and reality. Some systems have a semblance of truth, but they are fundamentally compromised because they do not begin with the book of Proverbs or the fear of God (Prov. 1:7).This study guide is the fruit of seven years of daily instruction in the book of Proverbs on the part of homeschooling father, pastor, and author, Kevin Swanson. Each lesson includes:A topical breakdownAn exposition in the form of illustration and applicationAnd, penetrating, application-oriented questions to stimulate family discussionsSpiral-bound. 265 Pages.
