From celebrated public intellectual, New York Times bestselling author, and "America's most famous professor" (BookPage) comes an urgent and sharply observed look at freedom of speech and the First Amendment offering a "nonpartisan take on what it does and doesn't protect and what kind of speech it should and shouldn't regulate" (Publishers Weekly). How does the First Amendment really work? Is it a principle or a value? What is hate speech and should it always be banned? Are we free to declare our religious beliefs in the public square? What role, if any, should companies like Facebook play in policing the exchange of thoughts, ideas, and opinions? With clarity and power, Stanley Fish explores these complex questions in *The First*. From the rise of fake news, to the role of tech companies in monitoring content (including the President's tweets), to Colin Kaepernick's kneeling protest, First Amendment controversies continue to dominate the news cycle. Across America, college campus administrators are being forced to balance free speech against demands for safe spaces and trigger warnings. With "thoughtful, dense provocations that will require close attention" (Kirkus

Reviews), Fish ultimately argues that freedom of speech is a double-edged concept; it frees us from constraints, but it also frees us to say and do terrible things. Urgent and controversial, *The First* is sure to ruffle feathers, spark dialogue, and shine new light on one of America's most cherished—and debated—constitutional rights.

A book for anyone who cares deeply about the future of the church. Once upon a time there was a version of our faith that was practically . . . irresistible. But that was then. Today we preach, teach, write, and communicate as if nothing has changed. As if “The Bible says it,” still settles it. It’s time to hit pause on much of what we’re doing and consider the faith modeled by our first-century brothers and sisters who had no official Bible, no status, and humanly speaking, little chance of survival. What did they know that we don’t? What made their faith so compelling, so defensible, so irresistible? Buckle up . . . you’re about to find out. More importantly, Andy will invite you to embrace the version of faith that, against all odds, initiated a chain of events resulting in the most significant and extensive cultural transformation the world has ever seen. A version we must embrace if we are to be salt and light in an increasingly savorless and dark world. “More than any other book I’ve read in years, *Irresistible* has stretched my view of Scripture. I can’t hear or read a passage from the Old or New Testaments without thinking about Andy’s provocative insights. If you and I take this book seriously, our lives and our churches will never be the same.”—Kara Powell, PhD, executive director of the Fuller Youth Institute and coauthor of *Growing Young* “*Irresistible* is like a once-in-a-generation shot across the bow. Andy Stanley takes a lifetime of accumulated insight and wisdom about the Christian faith, history, and why the church isn’t connecting with our current culture, and combines them together in a masterpiece work.” —Carey Nieuwhof, author and founding pastor, *Connexus Church* “Warning: This book will set you and your ministry back—back to the first century and the approach to advancing the gospel modeled by Jesus and the apostles. Andy reminds us that the resurrection was at the center of the first-century apologetic. Then he challenges twenty-first century believers to reclaim it as the center of ours as well. I agree with Andy—this approach changed the world once. I’m convinced it could do so again. Read and apply now!”—Frank Turek, Christian author, public speaker, and radio host “This book challenged me to rethink my thoughts about the Old Testament, discuss with fellow believers what I was learning, do more connecting and less correcting of others, and be salt and light, making things better and brighter. I love how Andy loves people . . . ALL of them.”—John Maxwell, author of *The 360 Degree Leader* “It’s time for the church to rethink how it presents a timeless gospel to this generation. In *Irresistible*, Andy Stanley challenges us to make sure we handle the Scriptures with the kind of integrity that compels everyone to seriously consider following Jesus. Any Christian who reads this book will suddenly find themselves embracing the mission of Jesus with a new passion.”—Reggie Joiner, author; founder and CEO of *Orange* “Andy Stanley takes you on a historic journey to rediscover the first-generation passion of what it means to faithfully follow Christ. This book will knock you off center, push you out of complacency, and reawaken an unshakable faith that cannot be ignored.”—Craig Groeschel, pastor of *Life.Church* and author of *Hope in the Dark—Believing God Is Good When Life Is Not*

"As the child of refugees of World War II Europe and a renowned philosopher and scholar of propaganda, Jason Stanley has a deep understanding of how democratic societies can be vulnerable to fascism: Nations don't have to be fascist to suffer from fascist politics. In fact, fascism's roots have been present in the United States for more than a century. Alarmed by the pervasive rise of fascist tactics both at home and around the globe, Stanley focuses here on the structures that unite them, laying out and analyzing the ten pillars of fascist politics--the language and beliefs that separate people into an 'us' and a 'them.' He knits together reflections on history, philosophy, sociology, and critical race theory with stories from contemporary Hungary, Poland, India, Myanmar, and the United States, among other nations. He makes clear the immense danger of underestimating the cumulative power of these tactics, which include exploiting a mythic version of a nation's past; propaganda that twists the language of democratic ideals against themselves; anti-intellectualism directed against universities and experts; law and order politics predicated on the assumption that members of minority groups are criminals; and fierce attacks on labor groups and welfare. These mechanisms all build on one another, creating and reinforcing divisions and shaping a society vulnerable to the appeals of authoritarian leadership. By uncovering disturbing patterns that are as prevalent today as ever, Stanley reveals that the stuff of politics--charged by rhetoric and myth--can quickly become policy and reality. Only by recognizing fascists politics, he argues, may we resist its most harmful effects and return to democratic ideals."--Jacket.

NEW YORK TIMES and INTERNATIONAL BESTSELLER In *Face the Music*, Paul Stanley—the co-founder and famous “Starchild” frontman of KISS—reveals for the first time the incredible highs and equally incredible lows in his life both inside and outside the band. *Face the Music* is the shocking, funny, smart, inspirational story of one of rock’s most enduring icons and the group he helped create, define, and immortalize. Stanley mixes compelling personal revelations and gripping, gritty war stories that will surprise even the most steadfast member of the KISS Army. He takes us back to his childhood in the 1950s and '60s, a traumatic time made more painful thanks to a physical deformity. Born with a condition called microtia, he grew up partially deaf, with only one ear. But this instilled in him an inner drive to succeed in the most unlikely of pursuits: music. With never-before-seen photos and images throughout, Stanley’s memoir is a fully realized and unflinching portrait of a rock star, a chronicle of the stories behind the famous anthems, the many brawls and betrayals, and all the drama and pyrotechnics on and off the stage. Raw and confessional, Stanley offers candid insights into his personal relationships, and the turbulent dynamics with his bandmates over the past four decades. And no one comes out unscathed—including Stanley himself. “People say I was brave to write such a revealing book, but I wrote it because I needed to personally reflect on my own life. I know everyone will see themselves somewhere in this book, and where my story might take them is why I’m sharing it.” —Paul Stanley
