The only bros for me are the mad awesome ones, the ones who are mad to chug, mad to party, mad to bone, mad to get hammered, desirous of all the chicks at Buffalo Wild Wings, the ones who never turn down a Natty Light, but chug, chug, chug like f*cking awesome players exploding like spiders across an Ed Hardy shirt and in the middle you see the silver skull pop and everybody goes, "Awww, sh*t!" Set to the beat of an 808, On the Bro'd spins the Axed-out tale of one fresh-as-hell player looking to up his game and put some perspective on shit (for real) while capturing the tumultuous times of the oh-tens and defining the spirit of the Beast Generation. It's pretty epic.

Named one of the best books of the year by NPR, Fortune, Bloomberg, Sunday Times A New York Times Book Review Editor's Choice "If you want to understand modern-day Silicon Valley, you need to read this book." —John Carreyrou, New York Times best-selling author of Bad Blood Hailed as the definitive book on Uber and Silicon Valley, Super Pumped is an epic story of ambition and deception, obscene wealth, and bad behavior that explores how blistering technological and financial innovation culminated in one of the most catastrophic twelve-month periods in American corporate history. Backed by billions in venture capital dollars and led by a brash and ambitious founder, Uber promised to revolutionize the way we move people and goods through the world. What followed would become a corporate cautionary tale about the perils of startup culture and a vivid example of how blind worship of startup founders can go wildly wrong.

A true story of how one man's ego and pride destroyed a mighty move of God that had only just begun.

Seven Lives of the Devil's Spawn: From Destruction to Salvation - A True Wild Cat Story provides an inside look at some of the most fascinating cultures in the world, ones that we will never see with the intensity of this wild cat deep hole driller. Michael Francis McMonagle's amazing biography tells the true-life story of a nobody. He's not the president of a country, a sports star or a member of a rock band. Instead, follow along with this humble kiwi (New Zealander) as he details his wild cat drilling career in exotic locales. McMonagle's life in the drilling industry pulls no punches, from seeing the tribal wars in the Papua, New Guinea highlands to crashing a chopper and being only one of two survivors, to living with headhunters and viewing cannibalism firsthand. His death-defying adventures take him from Africa to Antarctica. He was held hostage in the Philippines, where he suffered horrendous abuse and nearly died, and he's met and worked with Osama Bin Laden. Warning: Nothing is held back from this heart-stopping and gritty memoir. Its language may be offensive to some, but the story is unforgettable. Michael Francis McMonagle lives with his wife, Tina, in New Zealand, and is currently writing the sequel. "When I was taken hostage in the Philippines, I thought I was going to die. I told myself if I survived, I'd write my true life story. This I've done." His goal is to live life to the fullest and to have a loving family. <http://SBPRA.com/MichaelFrancisMcMonagle>
