'A striking feature of Clinical Sports Medicine has always been the authors' relentless commitment to "clinical". This is a unique book.' Dr Emma K Stokes, President, World Confederation for Physical Therapy This world-leading title in sport and exercise medicine is an authoritative and practical guide to physiotherapy and musculoskeletal medicine for clinicians and students. To accommodate the rapid advances in the professions, this fifth edition has been expanded into two volumes. This first volume, Clinical Sports Medicine: Injuries, is the essential guide to all aspects of preventing, diagnosing and treating sports-related injuries. It serves physiotherapists, team clinicians, athletic trainers, sports therapists, sports rehabilitators and trainers, as well as students in the health professions and in Human Movement Studies. All chapters have been updated and rewritten by an international team of sports physiotherapists and sports physicians at the top of their fields. More than 550 new figures have been added to bring the total number of illustrations to 1300. There are 15 new chapters, including: • Shoulder pain • Acute knee injuries • Posterior thigh pain • Low back pain • Return to play • Sport-specific biomechanics This ebook is enhanced with 40 video masterclasses showing procedures such as foot examination, hip injections and basic

biomechanical assessment. Note: The second volume, *Clinical Sports Medicine: Exercise Medicine*, is scheduled for release in 2018 and will focus on the health benefits of exercise and the medical issues in sport. It will serve general practitioners and other clinicians who prescribe exercise to promote health and to treat medical conditions such as heart disease and diabetes.

**ABOUT THE AUTHORS**

**PETER BRUKNER** OAM, MBBS, FACSEP, FACSM, FFSEM Peter Brukner is a Sport and Exercise Physician and currently the Australian cricket team doctor. He was previously Head of Sports Medicine and Sports Science at the Liverpool Football Club in the UK. Peter is the founding partner of the Olympic Park Sports Medicine Centre, a past president of the Australasian College of Sport and Exercise Physicians, and Professor of Sports Medicine at La Trobe University. Peter has been an Olympic team physician and was the Socceroos team doctor at the 2010 World Cup. In 2005 he was awarded the Order of Australia medal (OAM) for services to sports medicine.

**KARIM KHAN** MD, PhD, MBA, FACSEP, FACSM, FFSEM Karim Khan is a Sport and Exercise Physician and Professor of Sports Medicine at the Department of Family Practice at the University of British Columbia, Vancouver, Canada. He is Editor in Chief of the *British Journal of Sports Medicine (BJSM)* and has published more than 300 peer-reviewed research articles. In 2001, he was awarded the Australian Prime Minister's Medal for service to sports medicine. Karim was profiled in *The Lancet* in its 2012 Olympic Games issue.

The Bible of Sports Medicine - Now enhanced by a new companion website! Brukner and Khan's *Clinical Sports Medicine* 4th Edition is the complete practical guide to musculoskeletal medicine and physical therapy, covering all aspects of diagnosis and management of sports-related injuries and physical activity. Extensively revised and expanded by the world's leading sports physicians, this fourth edition continues to set the standard as the pinnacle of current knowledge and practice in sports medicine. At 1,270 pages, 67 chapters and over 1000 full colour images, the fourth edition has 25% more content than the best-selling third edition. All aspects of diagnosis and management of sports-related injuries and physical activity are covered, including the fundamental principles of sports medicine, diagnosis and treatment of sports injuries, enhancement of sports performance and dealing with special groups of participants. With a focus on clinical relevance, each chapter has been comprehensively reviewed and updated and there are 13 brand new chapters covering hot topics such as challenging hip pain, sudden death in sport, hamstring tear management, sideline emergency care, and the latest in pain science. Led by Peter Brukner (Head of Sports Medicine and Sports Science, Liverpool Football Club) and Karim Khan (Professor, University of British Columbia, Vancouver), the 100 strong author team, representing 14 countries around the world, are all renowned experts in their field and have an average of 15 years practical experience.

**Key Features:**

- New companion website featuring over 4 hours of assessment and treatment video and audio material which will be updated regularly – 12 months access with book purchase
- Comprehensively reviewed and updated featuring an expert international author team
- Expanded! Includes 13 new chapters covering topics such as hip pain, military medicine, prevention of sudden cardiac death and the integration of evidence into clinical practice
- MORE illustrations than ever before with over 1000 colour photographs demonstrating techniques, exercises and sports injuries and purpose drawn full colour anatomical illustrations
- Full colour text design greatly enhances readability of the content while clear colour differentiation for headings and figures ensures ease of use

The fourth edition is enhanced by a new companion website featuring *Clinical Sports Medicine Masterclasses Online*. Readers will gain access to this secure site via a pincode included with the book. The site will include video clips of clinical examinations, interviews with leading experts and will be updated regularly. Brukner and Khan's *Clinical Sports Medicine 4E* provides excellent value as an authoritative clinical foundation for physiotherapists, medical

practitioners, osteopaths, massage therapists, podiatrists, sports/athletic trainers, sports therapists, fitness leaders and athletes. It is widely adopted by students in sports physiotherapy, medicine, and human movement studies/kinesiology.

The revised third edition contains 80 illustrations now in full color! A Doody's Core Title for 2011! WINNER OF THE HIGHLY COMMENDED PRIZE IN THE ORTHOPAEDICS AND RHEUMATOLOGY CATEGORY OF THE 2007 BRITISH MEDICAL ASSOCIATION MEDICAL

BOOK AWARDS (of an earlier edition) "A previously good textbook has just got better! I particularly like the colour coding for chapters. Sections have been updated by experts in the individual topic areas. The new illustrations are used to demonstrate principles and example exercises. Brilliant: it is difficult to praise this book highly enough as it is an excellent textbook. The new illustrations, updated sections and use of eminent sports medicine specialists as co-authors help to reassure that every effort has been made to improve this book."--BMA REVIEWER QUOTE Clinical Sports Medicine has been fully updated from the popular 2nd edition (2000). It is even more practical, now superbly illustrated, easy-to-read and packed with substantially updated and new material. There are samples of several chapters online including the whole "Pain in the Achilles region" chapter. This book describes a completely symptom-oriented approach to treating clinical problems. The practitioner can turn to the chapter that describes the patient presentation (e.g., longstanding groin pain, acute ankle injuries) and review the likely differential diagnoses, the clinical approach, and the full color pictures of the physical examination (physical examination for several major systems are also available as a separate DVD).

Brukner & Khan's Clinical Sports Medicine, the world-leading title in sport and exercise medicine. To accommodate the rapid advances in the profession, this fifth edition has been expanded into two volumes. The first volume, Injuries, is the essential guide to all aspects of preventing, diagnosing and treating sports-related injuries. The six sections of The Medicine of Exercise are: \* Physical activity and health (6 chapters) \* Managing medical problems (16 chapters) \* Exercising in challenging environments (5 chapters) \* Exercise medicine for specific groups (5 chapters) \* Performance and ethics (5 chapters) \* Practical sports medicine (3 chapters)

Brukner & Khan's Clinical Sports Medicine, the world-leading title in sport and exercise medicine, is an authoritative and practical guide to the complete care of people at all levels of health and function. It is an ideal practical and reference text for physiotherapists, medical doctors, team clinicians, athletic trainers, sports therapists, sports rehabilitators and trainers, as well as students in the health professions and in Human Movement Studies/Kinesiology. To accommodate the rapid advances in the profession, this fifth edition has been expanded into two volumes. The first volume, Injuries, covers aspects of preventing, diagnosing and treating sports-related injuries. This second volume, The Medicine of Exercise, focuses on the health benefits of exercise and discusses the current medical issues in sport. The fourth edition of Clinical Sports Medicine was published in 2012; The Medicine of Exercise comprises 16 of these chapters, comprehensively revised and rewritten, along with 24 new chapters. The six sections of The Medicine of Exercise are: • Physical activity and health (6 chapters) • Managing medical problems (16 chapters) • Exercising in challenging environments (5 chapters) • Exercise medicine for specific groups (5 chapters) • Performance and ethics (5 chapters) • Practical sports medicine (3 chapters)

This much anticipated collection of stories, written by Oxford University Fellow and Pain Scientist, Dr GL Moseley, provides an entertaining and informative way to understand modern pain biology. Described by critics as 'a gem' and by clinicians as 'entertaining and educative', Painful Yarns is a unique book. The stories, some of his travels in outback Australia, some of experiences growing up, are great yarns. At the end of each story, there is a section "so what has this got to do with pain?" in which Lorimer uses the story as a metaphor for some aspect of

pain biology. The level of the pain education is appropriate for patients and health professionals. The entertainment is good for everyone. You don't have to be interested in pain to get something from this book and a laugh or two!
