'A beautifully textured tour around the cheeseboard' Simon Garfield 'Full of flavour' Sunday Times 'A delightful and informative romp ... a fine Christmas present, along with a wedge of Sparkenhoe Red Leicester' Bee Wilson, Guardian 'His encounters with modern-day practitioners fizz with infectious delight' John Walsh, Sunday Times Every cheese tells a story. Whether it's a fresh young goat's cheese or a big, beefy eighteen-month-old Cheddar, each variety holds the history of the people who first made it, from the builders of Stonehenge to medieval monks, from the Stilton-makers of the eighteenth-century to the factory cheesemakers of the Second World War. Cheesemonger Ned Palmer takes us on a delicious journey across Britain and Ireland and through time to uncover the histories of beloved old favourites like Cheddar and Wensleydale and fresh innovations like the Irish Cashel Blue or the rambunctious Renegade Monk. Along the way we learn the craft and culture of cheesemaking from the eccentric and engaging characters who have revived and reinvented farmhouse and artisan traditions. And we get to know the major cheese styles - the blues, washed rinds, semi-softs and, unique to the British Isles, the territorials - and discover how best to enjoy them, on a cheeseboard with a glass of Riesling, or as a Welsh rarebit alongside a pint of Pale Ale. This is a cheesemonger's odyssey, a celebration of history, innovation and taste - and the book all cheese and history lovers will want to devour this Christmas.

The most significant change in this edition of Leisure Education Program Planning is the infusion of information gleaned from writings by some of the leaders of the positive psychology movement. These readings provide valuable perspectives and insights about concepts related to leisure and leisure education. The book is organized into five sections. The first section contains six chapters designed to increase understanding of principles related to leisure and leisure education. The second section provides recommendations and research on leisure education, reviewing previous efforts to implement and understand leisure education programs. The third section provides considerations for developing the content (what to teach) of leisure education. The fourth section addresses the process (how to teach) of implementing leisure education programs. The final section of the book contains specific leisure education programs associated with six possible leisure education components (appreciate leisure, be aware of self in leisure, be self-determined in leisure, interact socially, use leisure resources, and make leisure decisions). The author has field-tested and evaluated various components of these leisure education programs.
