"Throughout the lessons, you will use what you already know to gain more knowledge. You will apply math to real-world situations so that you can see why it's important... This Learning by Doing approach makes you an active participant in your learning, and will help you develop a deep understanding of concepts to be successful in your future."--Back cover.

"Integrate Math III is the final course in the three-course Integrated Math series. With this course, students further explore quadratic functions and extend learning to polynomial functions. Students extend their understanding of arithmetic and geometric sequences to series, and their knowledge of trigonometric ratios to trigonometric functions. Additionally, students explore distributions of data, confidence intervals, and statistical significance." -- publisher

"The Math Series provides a complete set of research-based educational materials to inspire all middle school students to master mathematical concepts and skills. The instructional materials align to the Common Core State Standards (CCSS) for mathematics, grades 6-8, which define what students should know and be able to do at each grade level. Our pedagogical approach focuses on how students think, learn, and apply new knowledge in mathematics and empowers them to take ownership of their learning."--Introduction.

This math workbook, authored by Chris McMullen, Ph.D., is focused on essential prealgebra skills. It includes examples, plenty of practice problems, answers, and full solutions to most problems. Topics include: order of operations; PEMDAS; fractions, decimals, and percents; exponents and square roots; a beginning introduction to working with variables; ratios and rates; negative numbers; and other prealgebra skills. The author, Chris McMullen, Ph.D., has over twenty years of experience teaching math skills to physics students. He prepared this workbook of the Improve Your Math Fluency series to share his strategies for applying arithmetic and prealgebra skills.

"This is a program that focuses on all 3 modes of communication (interpersonal, presentational, interpretive) and was designed with the Common Core State Standards (CCSS) in mind."--Amazon/Publisher.

"The Carnegie Learning Math Series: Courses 1-3 were written for the Common Core State Standards and the Standards for Mathematical Practice. These courses provide research-based and engaging instruction to help all middle school students master math concepts and skills"--Publisher's website.
