In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that

need to be overcome.

In the midst of spiraling ecological devastation, multispecies feminist theorist Donna J. Haraway offers provocative new ways to reconfigure our relations to the earth and all its inhabitants. She eschews referring to our current epoch as the Anthropocene, preferring to conceptualize it as what she calls the Chthulucene, as it more aptly and fully describes our epoch as one in which the human and nonhuman are inextricably linked in tentacular practices. The Chthulucene, Haraway explains, requires sym-poiesis, or making-with, rather than auto-poiesis, or self-making. Learning to stay with the trouble of living and dying together on a damaged earth will prove more conducive to the kind of thinking that would provide the means to building more livable futures. Theoretically and methodologically driven by the signifier SF—string figures, science fact, science fiction, speculative feminism, speculative fabulation, so far—Staying with the Trouble further cements Haraway's reputation as one of the most daring and original thinkers of our time.

Seventeen in a series of annual reports comparing business regulation in 190 economies, *Doing Business 2020* measures aspects of regulation affecting 10 areas of everyday business activity.

Through the lens of time, the book critiques environmental law and recommends ways to enable it to respond to nature's time scales.

“Engrossing...detailed and intimate.” —Publishers Weekly “Absorbing” —Kirkus Reviews Veteran political journalist Joe Conason brings you along with Bill Clinton, as the forty-second president blazes new paths in his post-presidential career. It is unlike the second career of any other president: “Bill Clinton” is a global brand, rising from the dark days of his White House departure to become one of the most popular names in the world. Conason describes how that happened, examining Clinton's achievements, his failures, his motivations, and his civilian life. He explains why Clinton's ambitions for the world continue to inspire (and infuriate). Conason, who has covered Clinton for twenty years, interviewed him many times for this book—as well as Hillary and Chelsea and many of his friends, aides, rivals, and supporters. He has travelled with Clinton to Africa, Haiti, Israel, and across America. Clinton has earned tens of millions of dollars and raised billions for philanthropy, much of it from foreign sources, provoking questions about transparency and probity even as Hillary Clinton runs again for the presidency. Conason closely examines the financial support from other countries, corporations, and wealthy individuals, while assessing the Clinton Foundation's very real, far reaching achievements. He observes Clinton campaigning for his wife and asks: How would America's very first First Gentleman fare in a Hillary Clinton White House? *Man of the World*—starring the one and

only Bill Clinton—tells the engrossing story of an extraordinary man who is still seeking to do good in the world.

This publication contains the texts of the papers presented at the UN Colloquium, together with a record of those presentations and of the discussions which took place around them.

When Apple's mother returns after eleven years of absence, Apple feels almost whole again. In order to heal completely, her mother will have to answer one burning question: Why did she abandon her? But just like the stormy Christmas Eve when she left, her mother's homecoming is bittersweet. It's only when Apple meets her younger sister, Rain—someone more lost than she is— that she begins to see things for how they really are, allowing Apple to discover something that might help her to feel truly whole again. From the author of the acclaimed *The Weight of Water* comes a beautifully-crafted, moving novel about family, betrayal, and the ultimate path to healing.

The Pulitzer Prize and Drama Critics Circle Award winning play. *A Streetcar Named Desire* is the tale of a catastrophic confrontation between fantasy and reality, embodied in the characters of Blanche DuBois and Stanley Kowalski. Fading southern belle Blanche DuBois is adrift in the modern world. When she arrives to stay with her sister Stella in a crowded, boisterous corner of New Orleans, her delusions of grandeur bring her into conflict with Stella's crude, brutish husband Stanley Kowalski. Eventually their violent collision course causes Blanche's fragile sense of identity to crumble, threatening to destroy her sanity and her one chance of happiness.

Updated to include new findings in gene editing, epigenetics, agricultural chemistry, as well as two new chapters on personal genomics and cancer research
