On the night of March 26, 1938, nuclear physicist Ettore Majorana boarded a ship, cash and passport in hand. He was never seen again. In *A Brilliant Darkness*, theoretical physicist João Magueijo tells the story of Majorana and his research group, "the Via Panisperna Boys," who discovered atomic fission in 1934. As Majorana, the most brilliant of the group, began to realize the implications of what they had found, he became increasingly unstable. Did he commit

suicide that night in Palermo? Was he kidnapped? Did he stage his own death? A Brilliant Darkness chronicles Majorana's invaluable contributions to science—including his major discovery, the Majorana neutrino—while revealing the truth behind his fascinating and tragic life.

This is a translated version (from Italian) on Ettore Majorana, one of the brightest Italian theoretical physicists of the 20th century who disappeared mysteriously in 1938. He was part of Enrico Fermi's scientific team in the 1930s.

Self-Translation: Brokering originality in hybrid culture provides critical, historical and interdisciplinary analyses of self-translators and their works. It investigates the challenges which the bilingual oeuvre and the experience of the self-translator pose to conventional definitions of translation and the problematic dichotomies of "original" and "translation", "author" and "translator". Canonical self-translators, such as Samuel Beckett, Vladimir Nabokov and Rabindranath Tagore, are here discussed in the context of previously overlooked self-translators, from Japan to South Africa, from the Basque Country to Scotland. This book seeks therefore to offer a portrait of the diverse artistic and political objectives and

priorities of self-translators by investigating different cosmopolitan, post-colonial and indigenous practices. Numerous contributions to this volume extend the scope of self-translation to include the composition of a work out of a multilingual consciousness or society. They demonstrate how production within hybrid contexts requires the negotiation of different languages within the self, generating powerful experiences, from crisis to liberation, and texts that offer key insights into our increasingly globalized culture.
