Conducting and Rehearsing the Instrumental Music Ensemble is the most comprehensive guide on the rehearsal process for conducting instrumental music ensembles. Ideal for the advanced instrumental music conductor seeking to look beyond basic conducting technique, this work breaks the multidimensional activity of working with an ensemble, orchestra, or band into its constituent components. Advanced students of conducting will find within the full range of conducting activities: • Chapters on the infrastructure of the rehearsal, the rehearsal environment, 10 rehearsal essentials, score study, music imagery, inner singing, and rehearsal procedures (with an emphasis on an integrated approach to rehearsing) • The technical priorities of intonation and tuning, rhythm patterns, ensemble sonority (tone, balance, blend, color and texture), and articulation • The musical priorities of tempo and ensemble precision, phrasing and the musical line, style and interpretation, dynamics and musical expression • Emphasizing the expectations of 21st-century conductors, the challenges of conducting and rehearsing contemporary music, preparing conductor profiles and self-evaluations, and moving from the rehearsal process to concert performance Conducting and Rehearsing the Instrumental Music Ensemble is a great resource for teachers and students of conducting, as well as current conductors wishing to further hone their skills.

Following on the heels of his Conducting and Rehearsing the Instrumental Music Ensemble, John F. Colson takes students to the next level in conducting practice with Rehearsing: Critical Connections for the Instrumental Music Conductor. Colson draws together the critical connections for those seeking to become fully capable and self-assured instrumental music conductors. As he argues, too often conductor training programs treat the problems and challenges of the rehearsal—perhaps the single most critical element in any effort to achieve competency as a conductor—as secondary. Colson supplies the missing link for conductors looking for advice that allows them to complete their training for reaching complete competency as a conductor. He demonstrates throughout the specific connections that the advanced conductor must know and regularly employ—connections that few, if any, other works on the art of conducting address or bring together. One connection, for example, illustrates the joining of music imagery, inner singing, and conducting technique to score study. Throughout, these connections describe the nitty-gritty of what it really takes to stand up in front of an instrumental music ensemble and successfully rehearse in order to achieve its highest performance level. Also, Colson argues and demonstrates the pitfalls of the commonly mistaken assumption among instrumental music conductors that score study alone is sufficient to prepare them for the rehearsal process. This grave error is regularly belied by the fact that a number of other steps precede the actual rehearsal process, from the use of instrumental pedagogy during the rehearsal process to teaching through performance concepts. Colson ' s work addresses the entire rehearsing process thoroughly and authoritatively.

Instrumental Music Education: Teaching with the Musical and Practical in Harmony, 2nd Edition is intended for college instrumental music education majors studying to be band and orchestra directors at the elementary, middle school, and high school levels. This textbook presents a research-based look at the topics vital to running a successful instrumental music program, while balancing musical, theoretical, and practical approaches. A central theme is the compelling parallel between language and music, including "sound-to-symbol" pedagogies. Understanding this connection improves the teaching of melody, rhythm, composition, and improvisation. The companion website contains over 120 pedagogy videos for wind, string, and percussion instruments, performed by professional players and teachers, over 50 rehearsal videos, rhythm flashcards, and two additional chapters, "The Rehearsal Toolkit," and "Job Search and Interview." It also includes over 50 tracks of acoustically pure drones and demonstration exercises for use in rehearsals, sectionals and lessons. New to this edition: • Alternative, non-traditional ensembles: How to offer culturally relevant opportunities for more students, including mariachi, African drumming, and steel pans. • More learning and assessment strategies • The science of learning and practicing: How the brain acquires information • The philosophies of Orff and El Sistema, along with the existing ones on Kod à ly, Suzuki, and Gordon. • The Double Pyramid of Balance: Francis McBeth ' s classic system for using good balance to influence tone and pitch. • Updated information about copyright for the digital age Evan Feldman is Conductor of the Wind Ensemble and Associate Professor of Music at the University of North Carolina at Chapel Hill Ari Contzius is the Wind Ensemble Conductor at Washingtonville High School, Washingtonville, NY Mitchell Lutch is Associate Professor of Music and Director of Bands at Central College in Pella, Iowa

"Unusually comprehensive, this text covers the full spectrum of things that conducting students need to know - manual technique, how to develop leadership skills, transposition, score reading, score study and preparation, rehearsal procedures - plus, it includes sequenced musical excerpts for laboratory use. Throughout, the focus is on the physiological and psychological factors involved in conducting, as well as on content. Most topics covered include a section on how to practice and a discussion of common problems and their solutions." -- Back cover.

A comprehensive guide to the techniques of orchestral playing and the development of non-professional orchestras, Orchestral Performance covers all areas of orchestral music-making - instrumental technique and combination, ensemble, layout, repertoire and presentation. Christopher Adey - renowned specialist in the training of student orchestras - explores the responsibilities of both players and conductor, exposing many of the inadvertent results of interpretation with regard to sound and projection, and broadening the musical communication to which the less experienced orchestra can aspire. Written in a lively and authoritative style, this unique book is essential reading for performing musicians of all standards, instrumental teachers and aspiring conductors, and all who have any dealings with the performance of youth or student orchestras throughout the world, as well as anyone interested in what orchestral performance entails. 'A labour of love and wisdom.' Times Educational Supplement 'A treasure house of facts, advice, and hints. I could not put it down ... clearly written from the heart and from an obvious enthusiasm for the non-professional orchestra and orchestral musician.' Classical Music 'This is a thoroughly readable book, full of illustrations and containing the thoughts of someone with a wealth of experience.' Music Teacher
