Confessions of a Learner Parent is an autobiography of author's own experience with being a dad. I found the book light and interesting, I believe the author has managed to expose the experience from being non-parent to being a parent - the complete life change and when you are first time parent to two in one go as true to the fact as life is then from his perspective.

'I always wanted kids - but then again, I always wanted a loft conversion. Both are pretty easy to put off as they're very expensive and tend to wreck your house.' Stand-up comedian Sam Avery (aka the Learner Parent) started his award-winning blog when his twin boys were born. A million nappies, Peppa Pig episodes and a lot less sleep later, he shares all the lows, highs and hilarious in-betweens of his experiences of first-time parenthood in this, his highly anticipated first book. Sam's honest, messy and laugh-out-loud account of trying for a baby (which transpired to be babIES) and figuring out what to do with them once they arrived - right up to the toddler years of talking, walking and tantrum-ing - will have you crying with laughter between your own nappy changes and nursery runs.

An explosive new look at the pressures on today's teachers and the pitfalls of school reform, Confessions of a Bad Teacher presents a passionate appeal to save public schools, before it's too late. When John Owens left a lucrative job to teach English at a public school in New York City's South Bronx, he thought he could do some good. Faced with a flood of struggling students, Owens devised ingenious ways to engage every last one. But as his students began to thrive under his tutelage, Owens found himself increasingly mired in a broken educational system, driven by broken statistics, finances, and administrations undermining their own support system—the teachers. The situation has gotten to the point where the phrase “Bad Teacher” is almost interchangeable with “Teacher.” And Owens found himself labeled just that when the methods he saw inspiring his students didn't meet the reform mandates. With firsthand accounts from teachers across the country and tips for improving public schools, Confessions of a Bad Teacher is an eye-opening call-to-action to embrace our best educators and create real reform for our children's futures.

Take a peek! What kinds of things really happen inside an elementary school? The stories in Confessions of an Elementary School Principal will make you laugh. A few may make you cry. Other stories will provide insight into children and teaching. Many will give you pause and something to ponder. Stories span the career of Meril Smith. He is one of the lucky people who never went to work. He loved almost every ten-hour day he spent with students, teachers, and parents. All the stories are true. Only some of the names in the stories have been changed to “protect the guilty.”

Worse yet, soon after stepping aboard the ship, she becomes enmeshed in a conflict between them! What begins as an eagerly anticipated ocean crossing turns into a harrowing journey, where Charlotte gains a villainous enemy . . . and is put on trial for murder!After Words material includes author Q & A, journal writing tips, and other activities that bring Charlotte's world to life!

Confessions of a Public School Teacher: A 35-Year Veteran's Assessment on How Public Education Can Make the Grade By: Michael Marra A veteran teacher of 35 years, Michael Marra believes deeply in education's power to change lives. His enthusiasm for helping children realize their full potential lies at the core of his lessons. His efforts to make history and economics classes relevant to students' lives, both inside and outside the classroom, permeate his lively teaching style. Marra's philosophy on how best to improve our public schools does not sit well with teacher unions. He believes strongly that tenure, seniority and near-endless due process protect poor performing teachers and need swift, meaningful revision. On this, Marra is unwavering, and he presents refreshing suggestions for unlocking what he believes have become the greatest shackles on American schools. Readers will be well informed to make their own assessment on these critical issues: Part memoir, part argument and part how-to guide for aspiring educators, Confessions of a Public School Teacher is a must-read for anyone who believes true learning and development to be worthwhile pursuits. Marra's quest to leave the classroom a bit better than he found it is both his greatest support of those we cherish dearly—our children—and an invitation for the reader to join the conversation.

In a world that's changing at warp speed, our kids will need to navigate a path to success without a roadmap – something entrepreneurs do every day. What if we looked to the world of entrepreneurship, in addition to child development experts, for insights on helping kids gain the skills they'll need in order to prosper personally and professionally? Raising Can-Do Kids is the first book to make a link between the essential qualities that make great entrepreneurs tick and what we know about how children learn and grow, offering parents proven ways to raise kids who embrace the uncertain, challenging adventure that is growing up in today's (and tomorrow's) changing world. Each chapter is devoted to a quality – including curiosity, inventiveness, optimism, opportunity-seeking, compassion, and service -- and reveals how parents can nurture these qualities. Filled with engaging examples and actionable insights, Raising Can-Do Kids introduces a timely new paradigm for parents—one that will help “future-proof” our children and set them up for success on their own terms.

"I highly appreciate the quality of Fejes' and Dahlstedt's research and writing. They manage to present in a comprehensible way some essential concepts of Foucault that help us to understand better what practices of lifelong learning, in a broad sense, are emerging nowadays in advanced liberal societies. In doing so, they contribute to the renewal of critical thinking in education. They convince me that such renewal is important and necessary... and I think both theoreticians and practitioners of lifelong learning will equally recognize and value this analysis, particularly also, because they present a good mix of theory and practice." -Professor Danny Wildemeersch Today, people are constantly encouraged to verbalise and disclose their "true" inner self to others, whether on TV shows, in newspapers, in family life or together with friends. Such encouragement to disclose the self has proliferated through discourses on lifelong learning through which each citizen is encouraged to become a constant learner. The Confessing Society takes a critical stance towards the modern relentless will to disclose the self and argues that society has become a confessing society. Drawing on Foucault's later work on confession and governmentality, this book carefully analyses how confession operates within practices of lifelong learning as a way to shape activated and responsible citizens and provides examples of how it might be possible to traverse the confessional truth of the present time. Chapters include: Reflection and Reflective Practices Deliberation and Therapeutic Intervention Lifelong Guidance Medialised Parenting This controversial book is international in its scope and pursues current debates regarding trans-national policy and to research discussions on education, lifelong learning and governance, and it will provoke lively debate amongst educational practitioners, academics, postgraduate and research students in education and lifelong learning in Europe, North America and Australasia.

Embrace the Gritty Reality of Training Ever watched half your class stomp out on you? Fallen asleep facilitating a creativity workshop? Planned a bulletproof lesson plan, then dropped it 10 minutes after you started? Don't worry—it's fine to confess. If you have faced a surprise in the training room, chances are Jonathan Halls has seen it, too. As a result, he doesn't pretend to be a shiny happy trainer anymore; his 25-plus years of training and facilitating in 25 countries have taught him not to stress over a less-than-flawless class—and helped him focus less on himself and more on letting his learners shine. In Confessions of a Corporate Trainer: An Insider Tells All, Jonathan tells relatable and charming stories of what corporate training is really about, drawing from his highly rated train-the-trainer workshops and hundreds of honest conversations with like-minded trainers. He recounts the curveball he was thrown midway through a change management workshop in Zagreb, Croatia—and how it showed him the futility of overplanning. He shares the time a fire alarm disrupted a training program he led in Washington, D.C., and how he embraced the interruption. And he reflects on what conspires to knock trainers off their game (psst: demanding clients, heavy workloads, and frequent travel are only a few of the culprits). Discover the gritty reality of training. Confessions of a Corporate Trainer will entertain you, challenge you, and remind you why you as a trainer are so important in today's workplace.

Karen Quinn has successfully taught hundreds of parents how to prepare their children for testing, and Testing For Kindergarten is her ultimate, comprehensive guide to having fun while teaching to the underlying abilities every test assesses. Whether your child is going to a private kindergarten or a public school, he or she will most likely be tested—and placed in classrooms according to those results. But information about intelligence tests is closely guarded, and it can be difficult to understand what your kids need to know. As an expert who has successfully taught hundreds of parents how to work with their own children, Karen Quinn has written the ultimate guide to preparing your child for kindergarten testing. The activities she suggests are not about “teaching to the test.” They are about having fun while teaching to the underlying abilities every test assesses. From the “right” way to have a conversation to natural ways to bring out your child’s inner math geek, Quinn shares the techniques that every parent can do with their kids to give them the best chance to succeed in school and beyond. It's just good parenting—and better test scores are icing on the cake.
