Are you finding that your invoices and bank statements pile up every month, untouched and shied away from? Does your accountant spend more time on basic bookkeeping than on minimising your tax bill? If you're a small business owner who wants to take financial matters into your own hands, look no further. Bookkeeping for Dummies will guide you through all the basic skills needed to keep your business efficient and cost-effective ☹ from tracking your transactions and keeping ledgers, to producing balance sheets and satisfying the taxman at year-end. Learn to manage your finances painlessly and clearly, and master the art of bookkeeping! The book will be adapted from the current US edition of Bookkeeping for Dummies. Existing content will be revised to reflect essential UK information.

Double-entry accounting can be easy if it's explained well, and Mastering Book-keeping does just that. Now in its updated 8th edition, this popular book has helped thousands of people to get to grips with book-keeping. It explains the principles and practice of book-keeping sequentially, and includes: - The daybooks and ledger accounts - End of year accounting - Sole proprietorships, limited companies, partnerships and not-for-profit organisations - Using computers for accounting - Accounting for VAT - Progressing to more advanced management accounting - The implications of the Data Protection Act 1998 on book-keepers Plus step-by-step guides to compiling a balance sheet, depreciation, accounting for bad and doubtful debts, and much more. Everything is made clear with easy-to-follow explanations. Typical transactions are illustrated throughout to make the information even easier to understand. This book is suitable for those preparing for the examinations of ICB, AAT, IAB, OCR, AQA and all other courses in book-keeping and accounts.

Accounting for churches is not the same as accounting for businesses. A church bookkeeper must be aware of the special tax codes that govern the church's unique tax standing. But it is often hard for overworked or volunteer administrators to know every aspect of tax code that affects their church's ability to accept donations, oversee a benevolence fund, and offer a compensation package for their minister.Lisa London, The Accountant Beside You who brought you QuickBooks for Churches & QuickBooks for Nonprofits, explains the specialized needs of church accounting in an easy-to-understand manner for church administrators and volunteers. A CPA with decades of experience working with businesses as well as churches and other nonprofits, Lisa explains complex concepts in a reader-friendly, engaging manner. She is joined by Vickey Boatright, an accountant who runs THE online site for all things church accounting, www.freechurchaccounting.com. Together, Lisa and Vickey guide you through every essential aspect of church accounting. Church Accounting: The How-To Guide for Small & Growing Churches is a must-have reference for all the nuts and bolts of church accounting no matter what your accounting system. Lisa and Vickey help you set up accounting spreadsheets and explain the different types of accounting packages. If you are already using QuickBooks, it is also a perfect compliment to QuickBooks for Churches and Other Religious Organizations. Additionally, The Accountant Beside You will show you how to:calculate and file employee payroll without paying for an outside servicedesign and implement a compensation package for your minister, including a housing allowanceset up and administer a benevolence fundacknowledge donations per IRS guidelines, including vehicle donationsprepare for an annual auditbudget and forecast to provide for future church growthreimburse employees' expenses per IRS guidelinesset up proper internal controls to guard against fraud or errorimplement the basics to start a new churchdesign church by lawset up filing systems and the organize the officeThe Accountant Beside You series of accounting books for churches and nonprofits have been sold in all 50 states and every inhabitable continent.

There is a dearth of good books on accounting in China, East Asia and Southeast Asia. This book makes a valuable contribution towards filling the gap. In particular, the authors focus on the extent of the harmonisation of domestic standards with international accounting standards and on the development of the accounting profession. The final chapter in Part III deals with the problems and prospects for accounting harmonisation in the region.
