Letters To Vernon Watkins by Thomas, Dylan

When it wasn't soaking wet, I was. Aeroplanes grazed the roofs, bombs came by night, police by day, there were furies at the bottom of the garden, with bayonets, and a floating dock like a kidney outside the window, and Canadians in the bushes, and Americans in the hair; it was a damned banned area altogether.

Although Dylan Thomas is one of the most well-known poets of the twentieth century, much of his poetry is considered obscure and difficult, and readers and critics tend to concentrate on those poems that can be most easily understood. Not since the early sixties has there been an attempt to explicate the full corpus of Dylan Thomas's Collected Poems. In *Where Have the Old Words Got Me?* Ralph Maud tackles Thomas's entire work, giving special attention to more difficult and obscure poems. He makes valuable use of Thomas's letters as edited by Paul Ferris in his authoritative *Collected Letters* volume, bringing the whole man and his work into view.

"That brilliant commentator on Dylan, John Ackerman" - Andrew Sinclair, *Dylan Thomas: Poet of his People* John Ackerman's highly acclaimed study of the poems and prose works of Dylan Thomas traces his development as a writer, linking this for the first time with his Welsh background. The formative influence of Swansea on the young poet, his family roots in West Wales and the childhood visits to Fernhill farm and the nearby Blaen Cwm cottage are all included, together with the Boat House and Laugharne, the absorbing village life and the inspiration of its now famous land- and sea-scapes. The impact of Welsh nonconformity and the chapel, and the radical politics of Wales are also explored as important influences on the poet's career. The 1994 preface, together with the introduction, throws new light on later poems like "Prologue", the poet's work in film, broadcasting, as reader and as lecturer, while his own newly-discovered words, sharp and witty and with a poet's eye highlight his life, times and craft. The kaleidoscope of his changing worlds is seen in his homes in Wales and England, and his need in each one for a separate place to write, whether the hillside shed in Laugharne or a gypsy caravan in Oxfordshire or Camden.

A collection of essays on Dylan Thomas, reading culture and his place in modernist studies Reclining quietly with a book; an ear glued to the Hi-Fi; sifting a library stack; the TV flickering; a website gone live Few poets have inspired such remarkable scenes and modes of interpretation as Dylan Thomas. Our means of access and response to his work have never been more eclectic, and this collection sheds new light on what it means to 'read' such a various art. In thinking beyond the parameters of life writing and lingering interpretative communities, *Reading Dylan Thomas* attends in detail to the problems and pleasures of deciphering Thomas in the twenty-first century, teasing out his debts and effects, tracing his influence on later artists, and suggesting ways to understand his own idiosyncratic reading practices. From short stories to memoirs, poems to broadcasts, letters to films, manuscripts to paintings, the material considered in this volume lays the ground for a new consideration of Thomas's formal versatility, and his distinctive relation to literary modernism. Key Features Evaluates the breadth of Thomas's creative practice, from short stories to memoirs, poems to broadcasts, letters to films, manuscripts to paintings Draws on recently discovered manuscripts and archival material in Britain and North America A distinctive combination of cultural history, close reading, and critical theory
