Fifty Years of Flying Fun covers, in a roughly chronological order, over fifty continuous years of flying. This ranges from joining the RAF in 1962, through his intriguing first operational tour on Hunters in Aden, the early days of the Jaguar in Germany and, finally in the RAF, an almost outrageous two years flying the Jaguar and Hunter with the Sultan of Oman’s Air Force. His subsequent civil flying has been exclusively in the General Aviation and flying display fields as a flying instructor and well known display pilot, including being involved in many varied and interesting display-related episodes. With in excess of 7,000 flying hours on 59 different types D and only one aircraft (Spencer Flack’s Mustang) with a working autopilot D Rod gives a clear, and largely humorous, insight into the operation of a cross section of piston and jet engine vintage aircraft and his undoubted fifty years of fun since the first solo on 19 March 1963. Fifty Years of Flying Fun is not just a book for the aviation enthusiast, but for anyone wanting to learn about any aspect of flying history through the memoir of a man who lived through it all.

Providing complete coverage of the 2009 Edexcel IGCSE mathematics specification, this engaging book makes the information accessible for every student. It contains exam practice throughout, with revision questions and practice exam questions.

Following on from Introducing Pure Mathematics by Smedley and Wiseman, Further Pure Mathematics covers in one volume all the pure mathematics required by students taking further mathematics. It also provides the basics for mathematics encountered in Higher Education. A clear text is supported by worked examples, exercises, and examination questions. The two books will cover the requirements of Pure Mathematics as part of double-certification Mathematics for any examinations board. · Clearly written explanations and graded worked examples to help students when they are studying alone · Wide variety of exercises · Comprehensive selection of recent exam questions from all the major examination boards

Providing complete coverage of the 2009 Edexcel IGCSE maths specification, this engaging work makes the information accessible for every student. It contains exam practice throughout, with revision questions and practice exam questions.

Exam Board: EdexcelLevel: GCSESubject: MathsFirst Teaching: September 2015; First Exams: June 2017Get ready for the 2019 exams using Collins Edexcel GCSE Grade 9-1 Maths Foundation Practice Test Papers.Exam-style test papers provide realistic practice to fully prepare for the GCSE 9-1 exam. Further Pure FP1 is part of a brand new series of books that match the AQA specifications for Maths A-level, to be first taught from September 2004. The book has been produced in consultation with a Senior Examiner to ensure complete and authoritative coverage of the Further Pure 1 module. It contains all the extra pure maths that students need to know for AS-level Further Mathematics or Pure Mathematics, or for the first year of an A-level in these subjects.

Cambridge O Level Principles of Accounts has been designed specifically to meet the requirements of the Cambridge syllabus. Cambridge O Level Principles of Accounts has been written specifically for the Cambridge O Level Accounting syllabus. Accounting principles and practices have been explained in simple language to enhance the accessibility of the contents to students whose first language is not English. The book reflects the changes in the O Level Principles of Accounts syllabus and applies international accounting terminology.

Our brand-new resources are written specifically to tackle the demands of the GCSE (9-1) Maths.

New edition of our best-selling IGCSE Mathematics textbook

Providing complete coverage of the 2009 Edexcel IGCSE human biology specification, this book helps students perform to their best in the exam.
