Described by Virginia Woolf herself as “easily the best of my books”, and by her husband Leonard as a “masterpiece”, *To the Lighthouse*, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay’s promise to take a trip to the lighthouse the next day — a promise which isn’t to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf’s prose, with her delicate handling of the complexities of human relationships, *To the Lighthouse* has earned its reputation — frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.

A Story of Transformation and Salvation "I had no idea of the intimate reality and power of the Holy Spirit. Although I mouthed words about such things in hymns, and went through the motions of worship, my real hope and belief was in myself." "Then her turn came and she went into the chest high water. Karen had a glow about her as if she was sixteen again when I first saw her as a teenage beauty. I could virtually feel the healing in the air." This is a story of a couple who were transformed and saved by the power of the Holy Spirit. They had successful careers, a good marriage, a perfect family, a beautiful home, and a nice church, but in reality they were on a treadmill going downhill - until something wonderful happened.

The coroner calls him a cheat and says he is trying to weasel out of a humiliating contract. The Registry will call him mad—and mad sorcerers are very dangerous....
