Veterinary technician Jillian Everett has met plenty of canines – and some men who deserve 'dog' tags. But, when gorgeous millionaire Nic Caruso strides into Paradise Animal Clinic, a border collie muddying his designer suit, Jillian has to sit up and take notice. Nic doesn't expect to fall for a dog in need – or his beautiful caretaker!

As a bellwether state, Florida's experiences with redistricting in 2012 highlight issues, debates, and disputes of nationwide interest. In this collection, Seth McKee gathers essays from distinguished contributors to assess recurring problems in Florida's redistricting as well as new controversies.

Signatory States have the right to take action in order to maintain their financial stability, stimulate economic development or further their non-economic interests (such as health, the environment and food security). However, such measures can potentially conflict with the rights of foreign investors. Regulators and policy makers must take States' international commitments toward foreign investors into account when making decisions. They must also avoid resorting to protectionism in drafting new treaties. With this tension in mind, this book offers a balanced

reappraisal of bilateral treaties and regional agreements on foreign investments. The sensitive issues are examined in the light of the case law of arbitral investment tribunals and other international courts, and the analysis highlights how cross-fertilisation between trade and investment can assist in resolving conflicts.

This book intends to provide a comprehensive and up-to-date description of the newest techniques in minimally invasive liver surgery. The treatment of liver diseases comprises a significant component of the practice of any general surgeon working either in the academic, general and community hospitals. With the rapid expansion of knowledge and technology also the liver has been approached laparoscopically in a few specialized centers with well recognized advantages for the patients. Now this large amount of experience will be made universally available through this book. After a concise description of the main tools and technology necessary to carry out a safe laparoscopic and/or robot-assisted liver surgery, details of operative techniques will be illustrated. Each chapter will consist of an introduction, a summary of the indications and contraindications of specific operative procedures and a detailed description of each surgical procedure, including the potential complications of both the surgery and the postoperative care. A special effort will be done to provide informative and accurate illustrations and pictures, that will be completed by the DVD containing the movies illustrating the technical procedures performed by the leading European liver surgeons.

A boy who is afraid of the dark waits anxiously in bed for the strange creatures that visit him every night to descend from the ceiling, before discovering that even his parents' bed is not safe.

Livia Lacey came to the house she inherited in London's Cavendish Square with her two friends, Lady Cornelia Dagenham and Lady Aurelia Farnham, to experience the excitement of city life. With Cornelia now happily married, Livia and Aurelia are on their own. But dashing Prince Alex Prokov, a newcomer to London, seems enchanted by Liv the moment they meet. Disarmed by the prince's determined pursuit of her, his exuberant joy of living, and the desires he awakens in her, Liv agrees to marry him. But while night is a time for passionate embraces, Liv discovers that her irresistible husband can be as autocratic as he is extravagantly generous. While Alex balks at Liv's independent ways, he refuses to explain his own comings and goings. When Liv learns one of Alex's secrets she only loves him more. But when she learns the other secret, will she feel wickedly betrayed?

"Prayer is not so much about convincing God to do what we want God to do as it is about convincing ourselves to do what God wants us to do." —from the Introduction Activists Shane Claiborne and Jonathan Wilson-Hartgrove show how prayer and action must go together. Their exposition of key Bible passages provides concrete examples of how a life of prayer fuels social engagement and the work of justice. Phrases like "give us this day our daily bread" and "forgive us our debts as we forgive our debtors" take on new meaning when applied to feeding the hungry or advocating for international debt relief. If you hope to see God change society, you must be an ordinary radical who prays—and then is ready to become the answer to your own prayers.

This comprehensive and leading textbook has been revised and reworked building on the themes of the first edition. As before it covers all aspects of the nature of mind, and is ideal for anyone coming to philosophy of mind for the first time.
