"You know that pets can be fun. But some dogs, horses, pigs, and more have important jobs to do. With *Animals That Help Us* young readers will discover how animals help us stay safe. Readers will discover how dogs, and even some horses, are trained to help the blind stay safe and secure in their daily lives."--

Have you ever wondered what a guide dog does? How do they know to lead a blind owner? Can they understand traffic lights? Most importantly, how does the owner know where to pick up the poop? This memoir answers these questions—and more. It tells what guide dogs are supposed to do. They're smart, loyal and well-trained—but not all dogs are created alike. Musket is proof of that. He's definitely got a thing for treats and belly rubs. For the first time, the dog has his say. (Of course he needed a little help with the typing, since he doesn't have opposable thumbs. That's where author Mark Carlson came in. Still, Musket is the brains of the outfit.) Mark and Musket tell their story with humor, emotion, and Musket's occasional contradictions. And at the end of the day, Musket somehow manages to be a great guide dog too. *Confessions of a Guide Dog* was written so a wonderful, devoted dog could reach out to those who haven't been lucky enough to meet him. He'll make you smile, laugh, cry, and want to give him treats. This is their story. (And they're sticking to it.)

Faith. Trust. Triumph. "I'm sorry," the doctor said. "He is permanently and totally blind. There is nothing we can do for him." George and Sarah Hingson looked at each other, devastated. Their six-month-old son, Michael was a happy, strawberry blond baby boy, healthy and normal in every way except one. When the Hingsons switched on a light or made silly faces, Michael did not react. Ever. "My best suggestion is that you send him to a home for the blind," the doctor continued. "He will never be able to do anything for himself." Forty-seven years later, a yellow Labrador retriever puppy was born in the whelping unit of Guide Dogs for the Blind in San Rafael, California. The puppy's name was Roselle. On September 11, 2001, she saved Michael's life. This is Roselle's story too. —From the Introduction Every moment in Michael Hingson's and Roselle's lives seemed to lead up to this day. When one of four hijacked planes flew into the World Trade Center's north tower on September 11, 2001, Michael Hingson, a district sales manager for a data protection and network security systems company, was sitting down for a meeting. His guide dog, Roselle, was at his feet. Paired for twenty-one months, man and dog spent that time forging a bond of trust, much like police partners who trust their lives to each other. Michael couldn't see a thing, but he could hear the sounds of shattering glass, falling debris, and terrified people flooding around him and Roselle. However, Roselle sat calmly beside him. In that moment, Michael chose to trust Roselle's judgment and not to panic. They were a team. *Thunder Dog* is a story that will forever change your spirit and your perspective. It illuminates Hingson's lifelong determination to achieve parity in a sighted world and how the rare trust between a man and his guide dog can inspire an unshakable faith in each one of us.

Describes a day in the life of a seeing eye dog, from going with his owner to the grocery store and post office, to visiting a class of school children, and playing ball. Also describes their three-hundred mile walk from Boston to New York.

As her dog is a guide for her, Krieger is a guide for the reader to the world of "traveling blind." Readers will be fascinated by the insight into service animals, and guide dogs in particular, learning how these specially trained animals actually do their job. You begin to understand the taken for grantedness of the human-animal interaction; in the process, you have been privy to the intricate dance that goes into working with a guide dog. A particularly strong academic contribution of the book is the interior view of the experience of disability. This is a book that will involve and transform the reader, who comes to identify with Krieger's experience and to rethink what it means "to see," just as the author must do in her travels.

In a lyrical love letter to guide dogs everywhere, a blind poet shares his delightful story of how a guide dog changed his life and helped him discover a newfound appreciation for travel and independence. Stephen Kuusisto was born legally blind—but he was also raised in the 1950s and taught to deny his blindness in order to "pass" as sighted. Stephen attended public school, rode a bike, and read books pressed right up against his nose. As an adult, he coped with his limited vision by becoming a professor in a small college town, memorizing routes for all of the places he needed to be. Then, at the age of thirty-eight, he was laid off. With no other job opportunities in his vicinity, he would have to travel to find work. This is how he found himself at Guiding Eyes, paired with a Labrador named Corky. In this vivid and lyrical memoir, Stephen Kuusisto recounts how an incredible partnership with a guide dog changed his life and the heart-stopping, wondrous adventure that began for him in midlife. Profound and deeply moving, this is a spiritual journey, the story of discovering that life with a guide dog is both a method and a state of mind.

Discover how blindness and a bond between dog and man saved lives and brought hope during one of America's darkest days.
