Consulting rare archival sources, Salvatore Lupo traces the web of associations, both illicit and legitimate, that have defined the Sicilian Mafia from 1860 to the present. He focuses on several crucial periods of transformation: the Italian unification of 1860 and 1861, the murder of noted politician Notarbartolo, the fascist repression of the Mafia, the Allied invasion of 1943, the social conflicts that followed each world war, and the major murders and trials of the 1980s. Lupo clarifies the Mafia's cultural codes and situates them within social groups and communities. He also refutes the notion that the Mafia has grown more ruthless in recent decades. Rather than representing a shift from "honorable" crime to immoral drug trafficking and violence, Lupo argues the terroristic activities of the modern Mafia signify a new desire for visibility and a distinct break from the state.

The insightful essays in this book shine a new light on the roles of women within criminal networks, roles that in reality are often less traditional than researchers used to think. The book seeks to answer questions from a wide range of academic disciplines and traces the portrait of women tied to organized crime in Italy and around the world. The book offers up accounts of mafia women, and also tales of severe abuse and violence against women.

At a time when the world watches in horror the unfolding drama of millions of refugees and the anxiety of identity figures prominently among globalization’s many side effects, this is certainly a very timely book. with contributions that address the momentous issues at hand in ways that are not just varied but also surprisingly illuminating. It seems only appropriate that the book starts and ends (“Whoever is not Greek is a barbarian”; “The Women of the Other and us”) with well contextualized, historical / theoretical reflexions on the unfailingly self-serving construction and ultimate appropriation of “the other”, be it the supposedly inarticulate savage of neighboring barbarian shores or the haunting background presence of Arab women - the barely acknowledged half of the West’s reified “Rest”. In fact, although the chronological distance between the two historical moments is such as to discourage hasty generalizations, the continuities and the potential relevance are just too striking to be ignored.
