#1 NEW YORK TIMES BESTSELLER • "I've read kind of all the books on this subject . . . and this is the one you want to read."--Rachel Maddow Before Ukraine, before impeachment: This is the never-before-told inside story of the high-stakes, four-year-long investigation into Donald Trump's Russia ties—culminating in the Steele dossier, and sparking the Mueller report—from the founders of political opposition research company Fusion GPS. Fusion GPS was founded in 2010 by Glenn Simpson and Peter Fritsch, two former reporters at The Wall Street Journal who decided to abandon the struggling news business and use their reporting skills to conduct open-source investigations for businesses and law firms—and opposition research for political candidates. In the fall of 2015, they were hired to look into the finances of Donald Trump. What began as a march through a mind-boggling trove of lawsuits, bankruptcies, and sketchy overseas projects soon took a darker turn: The deeper Fusion dug, the more it began to notice names that Simpson and Fritsch had come across during their days covering Russian corruption—and the clearer it became that the focus of Fusion's research going forward would be Trump's entanglements with Russia. To help them make sense of what they were seeing, Simpson and Fritsch engaged the services of a former British intelligence agent and Russia expert named Christopher Steele. He would produce a series of memos—which collectively became known as the Steele dossier—that raised deeply alarming questions about the nature of Trump's ties to a hostile foreign power. Those memos made their way to U.S. intelligence agencies, and then to President Barack Obama and President-elect Trump. On January 10, 2017, the Steele dossier broke into public view, and the Trump-Russia story reached escape velocity. At the time, Fusion GPS was just a ten-person consulting firm tucked away above a Starbucks near Dupont Circle, but it would soon be thrust into the center of the biggest news story on the planet—a story that would lead to accusations of witch hunts, a relentless campaign of persecution by congressional Republicans, bizarre conspiracy theories, lawsuits by Russian oligarchs, and the Mueller report. In Crime in Progress, Simpson and Fritsch tell their story for the first time—a tale of the high-stakes pursuit of one of the biggest, most important stories of our time—no matter the costs.

God loves us and has a plan for us. Every human being is a part in that plan. There is opposition in all things, and overcoming trials is one of the most important lessons we can learn. It took me a long time to figure this out and I am grateful for what I have learned. But those lessons did not come without a price. In this little book, I will humbly share some of what I have learned.

When we reach out to the first bright light of the morning sun and stretch our arms to embrace it, we will experience immense joy. We just need to stretch our arms, and to welcome it within every cell and our being with love and enthusiasm. We will need to let go of all the inhibitions and let loose of all restrictions. The more we practice doing this, the closer we get to believe that the whole universe resides in us, in you." You are not a drop in an ocean but the entire ocean in a drop." Happiness is not an achievement; it is a realization. It is not a destination; we sense it throughout our journey. Happiness doesn't depend on what we have or what we don't have, it depends on what we are deep within us. When we stop constantly fighting back with what we are, when we realize that we are imperfectly the most perfect human ever created in the history of mankind. We realize our uniqueness. We can never make or produce happiness; we can only discover it because it has always been there around us and in our totality. Pure bliss has never happened to anyone through achievements, it happens when we drop the very idea of running behind, even running behind happiness and then we realize that we are complete and total, exactly as we are. This is how I write my bliss in black and white.

Cold Gather begins as notorious, self-destructive glassblower Neil Bishop is diagnosed with a malignant, inoperable tumor. Told he has less than six months to live, he turns to his old friend, Jack Scanlon, to organize a Pre-Wake Party in their hometown to say good-bye to his friends. At the party, Jack gets his first real look at Neil's live-in lover of four years, Marla Stone. Neil has often vividly described Marla's fiendish temper and consuming libido. Jack is instantly pole-axed by her poise, her smoky beauty and her sensuality, generating this inebriated exchange at the end of the day;"I turned to my dear friend, this man with whom I had howled at the moon and raised so much hell across the years and said, 'Of course you realize that, as soon as you're cold, I'm coming after Marla.'He squeezed my shoulder, smiled broadly and said, 'You should do that. She'd be good for you.'He had never been more wrong, but sometimes we hear only what we want. I could not ignore an imprimatur like this."Neil is dead within three months of the party;It had been rumored over many years, (although no one had seen them), that Neil had finally completed his masterwork; seven large works of molded glass he called "The Deadly Sins." In 1994, he had given the first piece, "Lust", to Jack for safekeeping. The existence and whereabouts of the other six pieces were unknown until Jack's first trip to visit Marla in California. As an intensely passionate relationship unfolds between Marla and Jack, she finally takes him to see five mind-blowing pieces: Envy, Gluttony, Anger, Pride and Sloth-- bequeathed to her by Neil.Beautifully written, Tom Buechler's muscular first novel revolves around the tempestuous, often explosive, relationship between Jack and Marla as they fall in and out of love during their search for the missing Seventh Sin--Greed.In Cold Gather, Buechler showcases his trademark earthy dialogue and his unique gift for creating offbeat characters. He has crafted a robust story that is smart, bold and darkly funny with a satisfyingly twisted finale.
