A major account of modern poetry, from one of its leading figures. James Fenton examines issues of creativity and the 'earning' of success, of judgement, tutorage, rivalry, and ambition. He considers the juvenilia of Wilfred Owen, the 'scarred' lines of Philip Larkin, the inheritance of imperialism, and issues of 'constituency' in Seamus Heaney. The book contains insights into the work of Marianne Moore, Elizabeth Bishop, Sylvia Plath, D. H. Lawrence, and W. H. Auden.

In his latest book, genealogist David Dobson has compiled a list of Scottish surnames of the estimated 150,000 Scots who settled in the America colonies. Many of the same surnames, of course, apply to the even greater number of Scots-Irish colonists whose forebears had originated in Scotland before re-settling in the province of Ulster. The Scottish Surnames of Colonial America attempts to identify Scottish names, provide explanations of their meaning and significance, give examples, and where applicable, name the clan to which the family is linked. In all, Mr. Dobson identifies about 1,000 Scottish surnames and their derivatives and also mentions one or more actual Scottish North Americans who bore that name before 1776.

This book includes Janowitz's seminal work, The Military in the Political Development of New Nations, with additional new analysis of Latin American nations and of the increasing significance of paramilitary and police forces in authoritarian regimes in developing nations.
