You had better not monkey around when it comes to place value. The monkeys in this book can tell you why! As they bake the biggest banana cupcake ever, they need to get the amounts in the recipe correct. There 's a big difference between 216 eggs and 621 eggs. Place value is the key to keeping the numbers straight. Using humorous art, easy-to-follow charts and clear explanations, this book presents the basic facts about place value while inserting some amusing monkey business.

for the blockbuster film Blade Runner By 2021, the World War has killed millions, driving entire species into extinction and sending mankind off-planet. Those who remain covet any living creature, and for people who can't afford one, companies built incredibly realistic simulacra: horses, birds, cats, sheep. They've even built humans. Immigrants to Mars receive androids so sophisticated they are indistinguishable from true men or women. Fearful of the havoc these artificial humans can wreak, the government bans them from Earth. Driven into hiding, unauthorized androids live among human beings, undetected. Rick Deckard, an officially sanctioned bounty hunter, is commissioned to find rogue androids and "retire" them. But when cornered, androids fight back—with lethal force. Praise for Philip K. Dick "The most consistently brilliant science fiction writer in the world." —John Brunner "A kind of pulp-fiction Kafka, a prophet." —The New York Times "[Philip K. Dick] sees all the sparkling—and terrifying—possibilities . . . that other authors shy away from." —Rolling Stone

The stories are abridged; the quality is complete. Classic Starts treats the world's beloved tales (and children) with the respect they deserve--all at an incomparable price. Pirates, buried treasure, and action aplenty--that's what's served up in this fine story, mates, and kids will eat it up. After Jim Hawkins finds the map to a mysterious treasure, he sets sail in search of the fortune. Little does he realize he's boarded a pirate ship, and that surprises and danger await him . . . including a meeting with the unforgettable Long John Silver.

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

The author shares his personal techniques, insights and experiences regarding saving money and investing, drawn from his blog posts as well as a series of letters to his teenage daughter, both dealing with money management.

An in-depth guide for angel investors and entrepreneurs on early stage investing economics Written by two of Boston's most active and experienced angel investors, Angel Investing by the Numbers is a handbook and desk reference for both investors and entrepreneurs looking to better understand the numbers side of angel investing. In the book, we discuss in detail what you should know about the financial mechanics of early stage investing, including how valuation works, what effect it has on returns, and how the companies in your portfolio work together to drive your overall results. Just like the baseball team manager using a MoneyBall approach needs to really understand the statistics of the game, the successful investor

employing our approach needs to understand the financial mechanics of investing. Overview of Contents: In this book we will cover important topics such as: 1) How to read, understand and utilize a Capitalization Table 2) How to place a proper value on an early stage company with a limited track record 3) What are some of the different financial pathways that can lead to a successful exit for companies and their angel investors 4) How to construct a portfolio that will improve the likelihood of successful returns 5) What the underlying financial math looks like in a top tier angel portfolio 6) What approaches to use to exercise options and buy restricted stock that minimize taxes and optimize your financial outcome Having a solid understanding of valuations, exit paths and portfolio construction might not sound like as much fun as baseball for many of our readers. But trust us, after investing in startups for a combined 25+ years and 100+ companies, we have learned the hard way and fully embrace the importance of mastering these important topics. Just because finance wasn't a focus in your career doesn't mean you can't understand the financial mechanics of angel investing - which is good because you cannot afford to ignore these realities!
