Ken Loach's much-loved classic is the basis for this lesson looking at how to 'translate' from text to screen. This lesson helps students understand the process of adaptation. It asks them to think about how they might translate the written word into live action by pulling out key moments from an extract and visualising them using a storyboard. By asking students to consider imagery, characterisation and action, this lesson encourages students to think about the ways in which texts are ...

Billy's only solace is when he obtains a Kestrel, and trains it. Bullied by children and teachers at school, and coming from a broken home in the first place plus a lazy slovenly mother, we are taken on a journey of Billy's life. We learn at the very end why Billy's father left home. The ending is not happy, nor is it meant to be.

Life After Kes examines the history and legacy of the 1969 award-winning British film, Kes, about a boy's (Billy Casper) relationship with a kestrel. This fascinating book not only pays homage to the vision and extraordinary talent involved both in front and behind the camera but also looks at subsequent changes in the educational system, posing some important questions. Are we any better off today? Have schools and teaching staff moved forward over the last few decades? Have successive governments learnt anything from the mistakes of the past? Life After Kes explores the lives of the cast and production team since the making of the film including David (Dai) Bradley who played the lead role and examines why the legacy of Billy Casper and the national perception of Kes cast a shadow over South Yorkshire. Does Casper's ghost still haunt this ex-mining community and is director Ken Loach's gritty northern drama as relevant today as it was then? This book is a must-have for all film fans, anyone who enjoyed Kes and all those with an interest in British social history.

Seminar paper from the year 2004 in the subject English Language and Literature Studies - Other, grade: keine, University of Rostock, course: Kulturwissenschaft: Representation of class in British Films since the 1930s, 5 entries in the bibliography, language: English, abstract: In this paper I take a closer look at the movie Kes produced by Ken Loach. The movie is based on the book A Kestrel for a Knave which was written by Barry Hines. It is a pretty interesting story and by watching the movie the viewer automatically compares his own life and school experiences with Billy's experiences. In the first part of this work I give a short introduction about the background and the situation in which the movie takes place. In the second part I take a closer look at Billy's daily life, his future options and his relationship to his brother. [...]

The predecessor to Helen Macdonald's *H is for Hawk*, T. H. White's nature writing classic, *The Goshawk*, asks the age-old question: what is it that binds human beings to other animals? White, the author of *The Once and Future King* and *Mistress Masham's Repose*, was a young writer who found himself rifling through old handbooks of falconry. A particular sentence—"the bird reverted to a feral state"—seized his imagination, and, White later wrote, "A longing came to my mind that I should be able to do this myself. The word 'feral' has a kind of magical potency which allied itself to two other words, 'ferocious' and 'free.'" Immediately, White wrote to Germany to acquire a young goshawk. Gos, as White named the bird, was ferocious and Gos was free, and White had no idea how to break him in beyond the ancient (and, though he did not know it, long superseded) practice of depriving him of sleep, which meant that he, White, also went without rest. Slowly man and bird entered a state of delirium and intoxication, of attraction and repulsion that looks very much like love. White kept a daybook describing his volatile relationship with Gos—at once a tale of obsession, a comedy of errors, and a hymn to the hawk. It was this that became *The Goshawk*, one of modern literature's most memorable and surprising encounters with the wilderness—as it exists both within us and without.

This book is about teaching English with a commitment to environmental values drawing on ecocritical perspectives and examples of classroom practice. .
