* Outboard motor
repair for the
average guy *
Fix up an old

File Type PDF Manual Ford

Outboard and
SAVE \$1000 or
more compared to
buying a new
motor! With a
little know-how
and a few common
tools, you can
fix an old
motor—bring it
back from the
dead. Sometimes
all it takes is
a squirt of

File Type PDF Manual Ford

WD-40 into the cylinder and a new spark plug. Or a new set of points and condensers—which do not require expert knowledge or black magic to install. Maybe the carburetor needs cleaning and adjusting. You

File Type PDF Manual Ford

Can do it! Max E. Wawrzyniak III is an outboard motor guru. He advises you to find an old motor at a yard sale for \$100 or so (and he tells you exactly which ones to look for), and fix it up—rather than

File Type PDF Manual Ford

spending \$1500
or more on a new
motor. He is a
big fan of
“cheap power.”
Get on the water
with money left
in your pocket.
With a basic
understanding of
how these motors
work, a little
logical
thinking, and a

File Type PDF Manual Ford

few hours' work,
you can go
boating for a
fraction of what
everyone else
has to pay.
Also—for the
boater who
already owns an
outboard motor
of any age—this
book demystifies
these internal-
combustion

File Type PDF Manual Ford

Marvels that can bring such frustration if they malfunction. You'll learn how they work, and the simple things you can do to keep them running forever. What Max teaches are not only money-saving

File Type PDF Manual Ford

skills, but can also be life-saving, as you will no longer be helpless in the face of engine trouble on the water.

His clear instructions and over one hundred color photographs will make anyone into

File Type PDF Manual Ford

©ms a capable
outboard
mechanic.

INCLUDES: What
to Buy, Where to
Find It, Tools
Needed and Where
to Begin, The
Ignition System,
Carburetors,
Water Pump
