### **Stout students look forward to normalcy after adapting during freshman year**

In the beginning, I was very unmotivated, taking science, technology, engineering and math classes at home and ... joining a club helped me so much to connect and get involved in an online ...

Math Connects: Concepts, Skills, and Problem Solving was written by the authorship team with the end results in mind. They looked at the content needed to be successful in Geometry and Algebra and backmapped the development of mathematical content, concepts, and procedures to PreK to ensure a solid foundation and seamless transition from grade level to grade level. The series is organized around the new NCTM Focal Points and is designed to meet most state standards. Math Connects focuses on three key areas of vocabulary to build mathematical literacy, intervention options aligned to RtI, and a comprehensive assessment system of diagnostic, formative, and summative assessments.

Study Guide and Intervention/Practice Workbook provides vocabulary, key concepts, additional worked out examples and exercises to help students who need additional instruction or who have been absent.

Skills Practice Workbook focuses on skills practice for each lesson as additional practice or for second-day teaching of the lesson.

Word Problem Practice includes additional practice in solving word problems that apply the concepts of the lesson.

Spanish Skills Practice Workbook focuses on skills practice for each lesson as additional practice or for second-day teaching of the lesson.
