‘ mum baby toddler – together we learn ’ Jan shares in her book real parenting experiences of when she was raising a young family. Like most new parents, Jan did not see or comprehend what she was embarking on and was caught up in her own life and needs rather than truly realizing the impact she was having on her developing babies and children. The journey she experienced and the one all new parents experience goes far beyond what you know you are

capable of handling today. Jan ' s personal story woven through professional knowledge makes parenting real. It will make you laugh, cry and learn what you could do better in the many challenges that you face while raising your growing family. Reading her book will help you find the balance in your own parenting journey to provide the best opportunities for the development of your babies and children – the future generation. George Bernard Shaw wrote, " Perhaps the greatest social service that can be rendered to the country and to mankind is to bring up a family " and Jan couldn ' t agree more. Using her professional midwifery and child health knowledge, Jan shares how to care for a newborn and growing baby and helps you understand how to live with and encourage an independent toddler. Jan helps you see what discipline is really for and why building relationships with babies and young

Human Robot Interaction (HRI) considers how people can interact with robots in order to enable robots to best interact with people. HRI presents many challenges with solutions requiring a unique combination of skills from many fields, including computer science, artificial intelligence, social sciences, ethology and engineering. We have specifically aimed this work to appeal to such a multi-disciplinary audience. This volume presents new and exciting material from HRI researchers who discuss research at the frontiers of HRI. The chapters address the human aspects of interaction, such as how a robot may understand, provide feedback and act as a social being in interaction with a human, to experimental studies and field implementations of human robot collaboration ranging from joint action, robots practically and safely helping people in real world situations, robots helping people via

Princess Polly's Potty: Hilarious potty training from Ladybird
Princess Polly's Potty: Potty Training for Girls is an entertaining picture book from Ladybird that helps parents struggling with potty training for girls aged 18+ months. Clear, informative and fun pictures are aimed at tackling the common anxieties that children may have about using the potty. Each page encourages parents and children to interact with the story by pressing the 'cheer' sound effect when the child has interacted correctly in order to eventually motivate their child into using the potty. Even princesses use the
