The #1 New York Times bestselling sequel to Sarah J. Maas's stunning and seductive *A Court of Thorns and Roses*.

This book contains two standalone stories and were previously published as *Voyeur* and *Stalker* under a shared pen name. *Voyeur*: Playboy. That's what I think every time I watch him from the library, someone who can never be a part of his world. Every time I see him, it's like he has a different woman in his arms, and it's never platonic. I may be a virgin, but even I know how to read between the lines, and they've got fuck buddies written all over them. *Introvert*. It's my first day as an intern, and I'm determined to stay in the shadows. I like it when nobody looks at me or talks to me. Life is so much better when I'm alone, but then I see him. That man is my boss, and even worse is what those mocking green eyes of his are telling me: He knows I hate him. He knows he terrifies me. But nothing is more horrific than the moment he bends down and whispers to my ear, It's my turn to watch you. *Stalker*: Some people may think I'm stalking him, but I'm not. I just like...observing, and he happens to be my favorite subject. I like to call him Mr. X. It's safer that way, since he's the hottest doctor in town, and I'd turn into a

laughingstock in an instant if people find out I have the audacity of even crushing on him – someone wildly successful, heartbreakingly handsome, and so dangerously charming he can seduce you into doing anything. I've seen it happen one too many times, which is why I know it's better this way. I stalk him when I need to de-stress. Fantasize about all sorts of things, which I then write in my journal. He's my imaginary boyfriend, and that's all he was supposed to be until... The day he suddenly meets my gaze--- Talks to me--- Touches me--- And everything changes.

Think Game of Thrones meets Buffy the Vampire Slayer with a drizzle of E.L. Half-Fae, half-human Bryce Quinlan loves her life. Every night is a party and Bryce is going to savour all the pleasures Lunathion – also known as Crescent City – has to offer. But then a brutal murder shakes the very foundations of the city, and brings Bryce's world crashing down. Two years later, Bryce still haunts the city's most notorious nightclubs – but seeking only oblivion now. Then the murderer attacks again. And when an infamous Fallen angel, Hunt Athalar, is assigned to watch her every footstep, Bryce knows she can't forget any longer.

From New York Times bestselling author Rachel Vincent comes a richly imagined, provocative new series set in the dark mythology of the Menagerie... When Delilah Marlow visits a famous traveling carnival, Metzger's Menagerie, she is an ordinary woman in a not-quite-ordinary world. But under the macabre circus big-top, she discovers a fierce, sharp-clawed creature lurking just beneath her human veneer. Captured and put on exhibition, Delilah is stripped of her worldly

possessions, including her own name, as she's forced to "perform" in town after town. But there is breathtaking beauty behind the seamy and grotesque reality of the carnival. Gallagher, her handler, is as kind as he is cryptic and strong. The other "attractions"—mermaids, minotaurs, griffins and kelpies—are strange, yes, but they share a bond forged by the brutal realities of captivity. And as Delilah struggles for her freedom, and for her fellow menagerie, she'll discover a strength and a purpose she never knew existed. Renowned author Rachel Vincent weaves an intoxicating blend of carnival magic and startling humanity in this intricately woven and powerful tale
