Pursuing the family name as the finest silk producer in Lyon, the young Huguenot Rachelle Dushane-Macquinet is thrilled to accompany her famous couturier Grandmere to Paris, there to create a silk trousseau for the Royal Princess Marguerite Valois. The Court is magnificent; its regent, Catherine de Medici, deceptively charming ... and the circumstances, darker than Rachelle could possibly imagine. At a time in history when the tortures of the Bastille and the fiery stake are an almost casual consequence in France, a scourge of recrimination is moving fast and furious against the Huguenots—and as the Queen Mother's political intrigues weave a web of deception around her, Rachelle finds herself in imminent danger. Hope rests in warning the handsome Marquis Fabien de Vendome of the wicked plot against his kin.

Questions ranging from 'how are forward prices determined?' to 'why does the Black-Scholes formula have the form it does?' are answered throughout the text. The authors use verbal and pictorial expositions, and sometimes simple mathematical models, to explain underlying principles before proceeding to formal analysis. Extensive uses of numerical examples for illustrative purposes are used throughout to supplement the intuitive and formal presentations.
