An outstanding reference tool for students of American English.

Written specifically for intermediate students of English as a second or foreign language. Helps build vocabulary, understand how words relate to each other, avoid common mistakes, and write and speak better English. Includes example sentences based on authentic American sources showing how words are really used in today's English; and numerous notes explaining common difficulties and showing links and contrasts between words.

This is the dictionary thousands of students rely on to help them learn more words - and how to use them. It includes - 3000 keywords; synonyms and opposites; topic notes; shortcuts; 36000 examples of how words are used; 1000 new words; 4400 collocations - the words that always go together; 3200 grammar patterns; 1400 phrasal verbs and 2600 idioms; 220 illustrations; 16 colour pages; 48 study pages.

An outstanding reference tool for students of American English.

Produced by Oxford's American Dictionaries Program, and drawing on the expertise of scores of American scholars and advisors, The New Oxford American Dictionary sets the standard of excellence for lexicography in this country. Here is the most accurate and richly descriptive picture of American English ever offered in any dictionary. Oxford's American editors drew on our 200-million-word databank of contemporary North American English, plus the unrivaled citation files of the world-renowned Oxford English Dictionary. We started with American evidence--an unparalleled resource unique to Oxford. Our staff logged more than 50 editor-years, checking every entry and every definition. Oxford's ongoing North American Reading Program, begun in the early 1980s, keeps our lexicographers in touch with fresh evidence of our language and usage--in novels and newspapers, in public records and magazines, and on-line, too. To provide unprecedented clarity, the entries are organized around core meanings, reflecting the way people think about words and eliminating the clutter and confusion of a traditional dictionary entry. Each entry plainly shows the major meaning or meanings of the word, plus any related senses, arranged in intuitive constellations of connected meanings. Definitions are supplemented by illustrative, in-context examples of actual usage. This major new edition of The New Oxford American Dictionary includes a guide to the pronunciations on every page, a new etymology essay by Anatoly Liberman, completely updated and revised maps, and more than a thousand new entries, covering everything new in our language from low-carb to warblog and beyond. The New Oxford American Dictionary is designed to serve the user clearly, simply, and quickly, with the precise guidance you expect from Oxford University Press. With in-depth and up-to-date coverage that all users need and expect--for reading and study, for technical terms, for language guidance--it continues the tradition of scholarship and lexicographic excellence that are the hallmarks of every Oxford dictionary. Web Site A companion web site is now available at www.oup.com/us/noad.
