Philips Essential School Atlas has been specially created for lower-secondary geography students (11-14 year olds). It is ideal for work leading up to GCSE (England and Wales) National Curriculum Key Stage 3, and Scotland's National Qualifications. The maps have been carefully designed so they are uncluttered and easy to read, containing specially selected place names and detail. A clear set of symbols and scale information accompanies each map and there is a useful introductory section covering basic atlas skills, including aerial photographs and satellite images to further explain particular features on the maps. Fully up-to-date, the atlas comprises a 16-page UK and Ireland section and a 42-page World section. Detailed regional maps, charts and satellite images of Europe, Italy, the Middle East, China, Japan, Kenya, USA, Brazil, and the Arctic and Antarctica are included, focusing on areas of special interest for students of geography, such as Japan's volcanoes and earthquakes, conservation in Kenya, and water supply in the USA. Philip's Essential School Atlas is ideal for special project work, featuring an informative section of world thematic maps on the environment, climate change, people, quality of life, and energy. Latitude and longitude co-ordinates are included in the index, alongside figure-letter references.

Published in association with The Royal Geographical Society. Now in its 99th Edition, Philip's Modern School Atlas is an essential reference work for secondary education (14-18 year-olds), suitable for Key Stage 4, GCSE, A-Level and international schools. The contents are divided into sections for ease of use, with each page colour-coded for rapid reference. There is a special section covering the United Kingdom and Ireland. With physically coloured maps, this is highly accurate mapping of the UK and Ireland - accompanying the physical maps are thematic maps on numerous key social and economic themes. The middle section is made up of 74 pages of World topographical maps, incorporating continental thematic maps on topics such as climate, population and economics, followed by 30 pages of World thematic maps. Completing the atlas is a

section of World social and economic statistics, accompanied by the index to the topographical maps in the atlas, showing letter-figure grid references as well as latitude and longitude co-ordinates. Available in both hardback and paperback formats, Philip's Modern School Atlas 99th Edition is an unbeatable combination of highly detailed physical mapping backed up by numerous tables and thematic maps.

- The 3rd edition of Philip's best-selling atlas for 5 to 7-year olds - Ideal for teaching Key Stage 1, helping to cover geography, history, science, citizenship and literacy requirements - Written by experts Professor David Wright and Rachel Noonan - Published in association with the Royal Geographical Society - 50 pages of clear, child-friendly maps showing our world today - Countries brought to life with flags, illustrations and photos - Bold text, simple words and short sentences to encourage reading skills - Starts with the Earth as a Planet then zooms into each of the world's regions with maps and illustrations - Numbered balloons on each map link to photos of real place Fully revised and updated, the new edition Philip's Infant School Atlas is intended for children in the early stages of reading, aged between 5 and 7 years old, with simple text to explain what is happening on the maps and illustrations to the young children. The atlas contents have been designed to be compatible with National Curriculum Key Stage 1 expectations. Clear, child-friendly maps are combined with fascinating photographs and facts about the world to provide essential geographical information for young children. 'Balloons' link photos of real places to each map. Guidance is given at the beginning of the atlas on how to use the maps, encouraging the early development of map skills and knowledge of the world. An index to the maps plus an illustrated glossary complete the atlas. Each colourful spread is illustrated with fascinating colour photographs and packed with fact boxes, curiosities, flags, stamps and simple quiz questions. Philip's Infant School Atlas is both fun to use and easy to understand. The text is simple and uncomplicated, and will encourage early reading skills to develop in the children.

"An excellent world atlas. Very illuminating, good colours, clear texts...good glossary and, last but not least, up-to-date". Amazon customer review - The ideal school atlas for Key Stage 3 pupils and Scotland's National Qualifications., 11-14 years old - All updated for 2021-2022 specifically to meet curriculum needs - Specially focused 16-page UK and Ireland section - Comprehensive 62-page world section includes thematic maps on the environment, climate change, people, quality of life, and energy - Published in association with the Royal Geographical Society Philip's RGS Essential School Atlas has been specially created for lower-secondary geography students (11-14 year olds). The maps have been carefully designed to be uncluttered and easy to read, containing specially selected place names and detail. A clear set of symbols and scale information accompanies every map, with a useful introductory section covering basic atlas skills, including aerial photographs and satellite images to further explain particular features on the maps. Latitude and longitude co-ordinates are included in the index, alongside figure-letter references. Fully up-to-date, the atlas includes detailed regional maps, charts and satellite images of Europe, Italy, the Middle East, China, Japan, Kenya, USA, Brazil, and the Arctic and Antarctica. It also focuses on areas of special interest for students of geography, such as Japan's volcanoes and earthquakes, conservation in Kenya, and water supply in the USA. Philip's RGS Essential School Atlas is ideal for special project work and is available in both hardback and paperback editions.

Published in association with the Royal Geographical Society, the authoritative Philip's Essential World Atlas presents the world in cartography of exceptional quality. The 144 pages of physical and political maps - fully revised and updated - have been selected to provide balanced coverage of the continents, while giving prominence to densely populated and economically or strategically important areas. Projections and scales have been chosen to maximize legibility and minimize distortion over the largest regions. Acclaimed by geographers everywhere, Philip's physical maps combine relief shading with layer-coloured contours to give a stunning visual impression of the Earth's surface, while charting physical features, settlements and communications with meticulous accuracy. Included also is a superb 26-page 'Images of Earth' section, showing 25 of the world's most important cities and regions in Europe, Asia, Africa, Australasia and the Americas in breath-taking satellite imagery. In addition, the atlas features a series of fascinating maps depicting our ocean seafloors in stunning detail. Completing the atlas, and with full latitude and longitude co-ordinates along with letter-figure grid references, the extensive index of over 64,000 names includes geographical features such as mountains, rivers, lakes and deserts, as well as provinces, towns and cities.

With 96 pages of authoritative world maps, a comprehensive index, 69 city maps, and a thematic section providing information on topics covered in geography, humanities and economics courses, Philip's World Atlas is recommended for students as well as for general home reference. The 96 pages of physical and political maps give a balanced coverage of the world at well-chosen scales. The hill-shading on the physical maps provides an exceptionally vivid portrayal of landforms. The 32-page introductory section - 'The World in Focus' - covers key geographical themes such as the Earth's position in the Solar System, the structure of the Earth, climate and weather, the environment, population, resources, economics and international organizations. The 48-page 'World Cities' section provides urban-area and city-centre maps marking tourist sites for 69 of the world's most important cities, backed up by a comprehensive index. Full-page satellite images for 9 of the cities featured complete this section. The 35,000-name index includes geographical features as well as towns and cities, with both letter-figure grid references and latitude and longitude co-ordinates.

DIVAn authoritative guide to the most significant artists, schools, and styles of street art and graffiti around the world/div

The 11th edition of the market-leading atlas for primary school pupils, Philip's RGS Junior School Atlas has been fully revised and updated with all the latest facts and curriculum requirements. - The essential atlas for primary schools with clear and easy-to-follow maps and diagrams - updated for 2021/2022 - Published in association with the Royal Geographical Society - Recommended for Key Stage 2 of the National Curriculum - and all 7-11 year olds - An excellent introduction to mapping concepts such as scale, direction, symbols, longitude and latitude - 22-page Britain and Ireland section with clear thematic charts, diagrams and large-scale regional maps - 22-page section on The World, with political maps - and thematic treatment of key themes, from volcanoes and earthquakes to transport and tourism - Continents section with physical and political maps - Easy-to-follow map references and 1,000-place index The market-leading atlas for pupils at primary schools, Philip's RGS Junior School Atlas is a stimulating and authoritative first introduction to the world of maps, and is recommended for Key Stage 2 of the National Curriculum. The introductory section describes the meaning of scale, how to measure distances using the maps, and explains the symbols on the maps. The following section is devoted to the United Kingdom and Ireland. Thematic maps cover topics such as mountains and rivers, climate and weather, population and cities, farming and fishing, industry and energy, transport, tourism and conservation. Regional maps of England and Wales, Scotland and Ireland complete this section. The rest of the atlas is made up of world thematic maps and world continental maps. Included are topics such as the world's climate, vegetation, agriculture, energy sources, and environmental concerns, such as global warming. A simple letter-figure index completes the atlas - a useful introduction to help the young reader find his/her way around the maps. Available in both Hardback and Paperback editions.

Complete Atlas of the World, 3rd Edition is now fully revised and updated to reflect the latest changes in world geography, including the annexation of Crimea and the new nation of South Sudan. Bringing each featured landscape to life with detailed terrain models and color schemes and offering maps of unsurpassed quality, this atlas features four sections: a world overview, the main atlas, fact files on all the countries of the world, and an easy-to-reference index of all 100,000 place names. All maps enjoy a full double-page spread, with continents broken down into 330 carefully selected maps, including 100 city plans. You will also find a stimulating series of global thematic maps that explore Earth's place in the universe, its physical forms and processes, the living world, and the human condition. From Antarctica to Zambia, discover the Earth continent-by-continent with Complete Atlas of the World, 3rd Edition.
