technical resource and practical car workshop manual for anyone interested in the legendary Rover V8 engine, and is fully illustrated with over 300 colour photographs and diagrams. Daniel and Nathan Lloyd run their own automotive tuning company, Lloyd Specialist Developments Ltd - specialising in tuning the Rover V8 engine.

Rover's big hatchback saloon of the 1970s and 1980s had all the elements of a superb motor car. It was the work of long-standing Rover engineers, with substantial input from their colleagues at Triumph. The SD1's top models even shared their V8 engines with earlier and much-loved classics from Rover. It was stunningly attractive, cleverly derived from Italian supercar styling and still extraordinarily practical thanks to its large hatchback configuration. In this new book, Rover historian James Taylor tells the full story of the SD1, warts and all, from initial concept to final production model. The oft-criticized early models and the more successful later variants are discussed as well as the exclusive Vitesse and Vanden Plas models and overseas and police variants. Finally, for those inspired enough to seek one out today, there is guidance on purchase and ownership. Includes full production histories and comprehensive specification

details and is fully illustrated with 200 colour and 70 black & white photographs.

Detailed information on tuning and building your Rover V8 engine. Tips and secrets used by professionals include every aspect of assembly from selecting components to increasing engine capacity. Covers road cars, off-road vehicles, circuit racing and rallying.

Starting with the original Standard prototype of 1903, this book covers the scores of Standard models built until the brand was discontinued in 1963 (Britain) and 1987 (India). It also covers the Ferguson tractor involvement, military aero-engine manufacture, military aircraft manufacturer (including Beaufighter and Mosquito fighter-bombers), Rolls-Royce Avon turbo-jet military engine manufacture, and Triumph cars.

Once given the green light to use Rover's newly acquired V8 engine, the Morgan Motor Company lost no time installing it under the bonnet of their traditional sports car. The Morgan Plus 8 became their biggest-selling model, spanning thirty-six years from its 1968 launch to discontinuation in 2004. After an eight-year respite it

was reintroduced to the firm's model line -up from 2012 until 2018, underpinned by a new state of the art bonded aluminium chassis and powered by a potent BMW V8. Morgan Plus 8 - Fifty Years an Icon gives a detailed account of the history, design and manufacturing process of the Morgan Plus 8. With over 300 colour photographs it covers both the traditional and Aero chassis cars; the history of both the Rover V8 and the BMW V8 engines; includes full specifications for each model; recalls the Plus 8's motor sport heritage; features personal first-hand accounts from key personalities and finally, covers the history of the mark and looks at its future.
