automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. The developers who will benefit the most from a certification are the ones with typically less than 5 year's project experience. This is not to say that developers with higher experience will not benefit, but at that level, having a certification matters much less. So if you have little or no ABAP experience, you should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first step on you ladder to success is the: ABAP with SAP NetWeaver 7.0 SAP Certified Development Associate Exam The author is himself certified on the latest version and has over 10 years of SAP development experience in various technical
