The Untouchable Tree is about our connection to the magnificence, the transcendence, and the essential nature of trees. Throughout human history, they have served as shelter and as symbol. And today, more than ever, our destiny is tied to theirs. The books weaves together prose, poetry, and art in a unique exploration of our relationship with these plants, from the billowy yet delicate black cherry to the majestic white oak. Each painting subtly points to a range of historical mythological symbols, reminding us of the "untouchable," the sacred, within each of us.

Haynes offers the best coverage for cars, trucks, vans, SUVs and motorcycles on the market today. Each manual contains easy to follow step-by-step instructions linked to hundreds of photographs and illustrations. Included in every manual: troubleshooting section to help identify specific problems; tips that give valuable short cuts to make the job easier and eliminate the need for special tools; notes, cautions and warnings for the home mechanic; color spark plug diagnosis and an easy to use index.

“This important new book . . . based on archival material . . . shows the huge extent of Soviet espionage activity in the United States during the 20th century” (The Telegraph). Based on KGB archives that have never been previously released, this stunning book provides the most complete account of Soviet espionage in America ever written. In 1993, former KGB officer Alexander Vassiliev was permitted unique access to Stalin-era records of Soviet intelligence operations against the United States. Years later, Vassiliev retrieved his extensive notebooks of transcribed documents from Moscow. With these notebooks, John Earl Haynes and Harvey Klehr have meticulously constructed a new and shocking historical account. Along with valuable insight into Soviet espionage tactics and the motives of Americans who spied for Stalin, Spies resolves many long-standing intelligence controversies. The book confirms that Alger Hiss cooperated with the Soviets over a period of years, that journalist I. F. Stone worked on behalf of the KGB in the 1930s, and that Robert Oppenheimer was never recruited by Soviet intelligence. Uncovering numerous American spies who never came under suspicion, this essential volume also reveals the identities of the last unidentified American nuclear spies. And in a gripping introduction, Vassiliev tells the story of his notebooks and his own extraordinary life.

The Fiat Punto is distinctively Italian with subtle design cues that set it apart from other superminis, suggesting that the manufacturer has mastered the sleek Euro look perfectly. The modifier can only enhance this look with a huge range of aftermarket modifying products designed especially for the Punto, that are easy to obtain. But what if you should run into problems when creating the car of your dreams - ill-fitting kit, no instructions? Well, Haynes are here to help at every stage of your car's transformation with the full colour Haynes Extreme guide to DIY modifying - everything you need to know, under one cover.
