From The New York Times Best Seller author, Skeleton Creek is a fast-paced detective series that alternates between book and video. Sarah and Ryan stop at nothing to unearth the truth including digging graves for the crossbones.

Some of us fear moments when we need to defend our theology. Some of us seek them out. But we are seldom ready the way Jesus seemed to be ready. So how do we draw others to God in the midst of these ordinary conversations the way Jesus did? In *Speaking of Jesus*, Carl Medearis draws on his experience of international reconciliation between Muslims and Christians to remind us of the heart of the matter: Jesus. Here he gives us tools, stories, and the foundation we need to move beyond "us" and "them" and simply talk about the One who changes it all. As Carl writes, "While others are explaining and defending various isms and ologies we're simply pointing people to our friend. The one who uncovers and disarms. Who leads people right to himself. The beginning and the end of the story. A good story indeed."

Building on both the perspective of God's new creation and the view from the neighborhood, "To Live in Peace" shows how the life of the church, the strategies of community development, and the practices of peacemaking can make a transformational difference.

Why exactly is Paul Revere revered? Was the lightbulb really Thomas Edison's bright idea? * Best-selling author Leland Gregory employs his masterful wit to expose historical myths, faux "facts," strange events, and tales of human stupidity throughout history. If it would shock you to learn that Benjamin Franklin didn't discover electricity, you'll appreciate this take on hundreds of historical legends and debacles. Historians and humorists alike may be surprised to learn that: * Samuel Prescott made the famous horseback ride into Concord, not Paul Revere. * As a member of Parliament, Isaac Newton spoke only once. He asked for an open window. * On April 24, 1898, Spain declared war on the U.S., thus starting the Spanish-American War. The U.S. declared war the very next day, but not wanting to be outdone, had the date on the declaration changed from April 25 to April 21. With these and many other stories, leading humorist Leland Gregory once again highlights both the strange and the funny side of humankind.

Trained as a spy by the King's Own Herald, an orphan named Mags rises through the ranks of the Heralds' Collegium and uses his powerful Mindspeech gift to outmaneuver a royal court plot that risks his mentor and family. 40,000 first printing.

When Rachel Balducci looks for material for her writing, she doesn't have to look far. Her subject matter can be found climbing through the window, hanging on to the edge of the roof, and always at the refrigerator. Here she chronicles the exuberant, awesome life of boys through conversations overheard, rules she's been forced to make, and the many episodes of boy behavior that continue to mystify mothers worldwide. From the care and feeding of her team, to travels out in public, to their wide-eyed adoration of Walker, Texas Ranger, this laugh-out-loud celebration joyfully explores the sweet and wild side of boyhood.

In an epic novel that reimagines the Hundred Years War—in a world where angels and demons choose sides on the battlefield—England and France find themselves locked in a holy war, but which country has God's favor? England, 1337:

Edward III is beset on all sides, plagued by debt and surrounded by doubters. He refuses to pay homage to the newly crowned Philip Valois of France and seeks to secure his French holdings, but he's outmanned. Philip can put 50,000 men in the field, but he is having his own problems: he has summoned the angels themselves to fight for France, but the angels refuse to fight. Both kings send priests far and wide, seeking holy relics and heavenly beings to take up the cause of their country, but God remains stubbornly silent, refusing to grant favor to either side. Meanwhile, among the poor and downtrodden, heretical whispers are taking hold: what if God—who has never been seen to do anything for them—is not the rightful leader of the heavens after all? And as Edward's situation becomes increasingly desperate, even his counselors begin to believe that if God won't listen, perhaps they can find a savior not from Heaven, but from Hell. In a sweeping tale packed with courtiers and kings, knights and priests, and devils and angels, Mark Alder breathes fresh and imaginative life into the Hundred Years War in this unique historical epic.
