thinking. Concise and accessible, this book utilises chapter summaries, exercise questions and lists of further reading to provide a perfect introduction to this subject.

**Disability: The Basics** is an engaging and accessible introduction to disability which explores the broad historical, social, environmental, economic and legal factors which affect the experiences of those living with an impairment or illness in contemporary society. The book explores key introductory topics including: the diversity of the disability experience; disability rights and advocacy; ways in which disabled people have been treated throughout history and in different parts of the world; the daily realities of living with an impairment or illness; health, education, employment and other services that exist to support and include disabled people; ethical issues at the beginning and end of life.

**Disability: The Basics** aims to provide readers with an understanding of the lived experiences of disabled people and highlight the continuing gaps and barriers in social responses to the challenge of disability. This book is suitable for lay people, students of disability studies as well as students taking a disability module as

part of a wider course within social work, health care, sociology, nursing, policy and media studies.

Migration is a politically sensitive topic and an important aspect of contentious debates about social and cultural diversity, economic stability, terrorism, globalization, and nationalism. *Global Migration: The Basics* examines: history and geography of global migration the role of migrants in society impact of migrants on the economy and the political system policy challenges that need to be faced in confronting a rapidly changing world economy and society. This book challenges students of geography, political science, public policy, sociology, and economics to look beyond the rhetoric and consider the real and basic facts about migration. Through detailed examinations of the scholarly literature, demographic patterns, and public policy debates, *Global Migration: The Basics* exposes readers to the underlying causes and consequences of migration.

The global economy is dominated by a powerful set of established and emerging capitalisms, from the long-standing capitalist economies of the West to the rising economies of the BRIC (Brazil, Russia, India and China) countries. An understanding of capitalism is therefore fundamental to understanding the modern world. *Capitalism: The Basics*

## Where To Download Sociology The Basics Routledge

is an accessible introduction to a variety of capitalisms and explores key topics such as: the history of major capitalist economies; the central role played by both states and markets in the global economy; the impact of capitalism on wages, workers and welfare; approaches to the analysis of capitalism, and choices for capitalism's future. Examining capitalism from both above and below, featuring a range of case studies from around the globe, and including a comprehensive glossary, this book is the ideal introduction for students studying capitalism.

Race and ethnicity have shaped the social, cultural and political character of much of the world, and remain an important influence on contemporary life in the 21st Century. Race and Ethnicity: The Basics is an accessible introduction to these potent forces. Topics covered include: The forms and dynamics of racial and ethnic relations The dynamics of inequality The relationship between prejudice and discrimination Ethnic conflict Models of inclusion Including plenty of examples, chapter summaries and a glossary, this book is an essential read for all those interested in the contested field of race and ethnicity.
