*Originally published in hardcover in the United States by Crown Business, New York, in 2017--Title page verso.

The acclaimed New York Times and Wall Street Journal bestseller from Robert Cialdini—"the foremost expert on effective persuasion" (Harvard Business Review)—explains how it's not necessarily the message itself that changes minds, but the key moment before you deliver that message. What separates effective communicators from truly successful persuaders? With the same rigorous scientific research and accessibility that made his Influence an iconic bestseller, Robert Cialdini explains how to prepare people to be receptive to a message before they experience it. Optimal persuasion is achieved only through optimal pre-suasion. In other words, to change "minds" a pre-suader must also change "states of mind." Named a "Best Business Books of 2016" by the Financial Times, and "compelling" by The Wall Street Journal, Cialdini's Pre-Suasion draws on his extensive experience as the most cited social psychologist of our time and explains the techniques a person should implement to become a master persuader. Altering a listener's attitudes, beliefs, or experiences isn't necessary, says Cialdini—all that's required is for a communicator to redirect the audience's focus of attention before a relevant action. From studies on advertising imagery to treating opiate addiction, from the annual letters of Berkshire Hathaway to the annals of history, Cialdini outlines the specific techniques you can use on online marketing campaigns and even effective wartime propaganda. He illustrates how the artful diversion of attention leads to successful pre-suasion and gets your targeted audience primed and ready to say, "Yes." His book is "an essential tool for anyone serious about science based business strategies...and is destined to be an instant classic. It belongs on the shelf of anyone in business, from the CEO to the newest salesperson" (Forbes).

*Cindy Golden, a seasoned special educator, administrator, and psychologist with almost 30 years of experience, has based this teacher-friendly toolkit on her popular OMAC (Organization and Management of All Classrooms) system&—an innovative approach to creating effective classrooms for students with all types of disabilities. Special educators will get step-by-step, ready-to-use guidance on managing six key aspects of their daily work: Environment. Make the most of every inch of classroom space! Clean out clutter, arrange furniture to improve traffic flow, and construct classroom zones, work stations, and bulletin board displays that support learning. Communication. Implement low-cost communication supports that meet student needs. Make simple picture symbol books, interactive schedules, labels for classroom areas and objects, and more. Teaching Methods and Materials. Determine student needs, create schedules, simplify the IEP process, and pinpoint the best methods for teaching academic, vocational, behavioral, social, and life skills. Behavioral Systems. Organize a successful behavioral system that motivates students, helps them improve behavior and social skills, and uses positive reinforcement techniques. Data and Paperwork. Learn the secrets to creating a simple, logical, highly efficient system for managing paperwork&—so more time can be spent on teaching. Staff and Home Supports. Build trusting, respectful relationships with classroom staff and parents with stress-free strategies like team meetings and home communication notebooks. For each of these critical areas, special educators will discover dozens of proven strategies, vivid examples, and clever tips and tricks to help them make immediate improvements in their classroom. They'll also get a CD-ROM with more than 60 printable forms and tools they can use right away to support learning, safety, and positive behavior.--Publisher.
