Chapter Discussion Question: Teachers are encouraged to participate with the student as they complete the discussion questions. The purpose of the Chapter Purpose section is to introduce the chapter to the student. The Discussion Questions are meant to be thought-provoking. The student may not know the answers but should answer with their, thoughts, ideas, and knowledge of the subject using sound reasoning and logic. They should study the answers and compare them with their own thoughts. We recommend the teacher discuss the questions, the student's answers, and the correct answers with the student. This section should not be used for grading purposes. DVD: Each DVD is watched in its entirety to familiarize the student with each book in the course. They will watch it again as a summary as they complete each book. Students may also use the DVD for review, as needed, as they complete each chapter of the course. Chapter Worksheets: The worksheets are foundational to helping the student learn the material and come to a deeper understanding of the concepts presented. Often, the student will compare what we should find in the fossil record and in living creatures if evolution were true with what we actually find. This comparison clearly shows evolution is an empty theory simply based on the evidence. God's Word can be trusted and displayed both in the fossil record and in living creatures. Tests and Exams: There is a test for each chapter, sectional exams, and a comprehensive final exam for each book.

NEW YORK TIMES BESTSELLER - OPRAH'S BOOK CLUB PICK - The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. "An instant American classic."--Dwight Garner, *The New York Times* "As we go about our daily lives, caste is the wordless usher in

a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power--which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people--including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others--she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. In *An Indigenous Peoples' History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative.

This study and activity guide is a companion for *Connections Remembered, The African Origins of Humanity and Civilization*. It first provides a framework for study leaders to aid participants in thinking about and processing the book's historical material, which amplifies the greatness and challenges of the African past and connects that past to Black identity today. Recall of historical facts, figures, and maps is not enough; making meaning of the knowledge is critical for transforming thinking and propelling us to liberating action. Second, the majority of the guide is made up of more than 30 activities, including participant worksheets, to support and elaborate on the content of each of the book's eight sections. Aligned with each of those sections of *Connections Remembered*, the guide offers a summary, suggested learning objectives, and 3-4 activities adaptable for teens and adults. The activities are designed to build study participants' mental muscles around critical thinking, inquiry, collaborative problem-solving and innovation and social muscles through teamwork.

Cokie Roberts's number one New York Times bestseller, *We Are Our Mothers' Daughters*, examined the nature of women's roles throughout history and led *USA Today* to praise her as a "custodian of time-honored values." Her second bestseller, *From This Day Forward*, written with her husband, Steve Roberts, described American marriages throughout history, including the romance of John and Abigail Adams. Now Roberts returns with *Founding Mothers*, an intimate and illuminating look at the fervently patriotic and passionate women whose tireless pursuits on behalf of their families -- and their country -- proved just as crucial to the forging of a new nation as the rebellion that established it. While much has been written about the men who signed the Declaration of Independence, battled the British, and framed the Constitution, the wives, mothers, sisters, and daughters they left behind have been little noticed by history. Roberts brings us the women who fought the Revolution as valiantly as the men, often defending their very doorsteps. While the men went off to war or to Congress, the women managed their businesses, raised their children, provided them with political advice, and made it possible for the men to do what they did. The behind-the-scenes influence of these women -- and their sometimes very public activities -- was intelligent and pervasive. Drawing upon personal correspondence, private journals, and even favored recipes, Roberts reveals the often surprising stories of these fascinating women, bringing to life the everyday trials and extraordinary triumphs of individuals like Abigail Adams, Mercy Otis Warren, Deborah Read Franklin, Eliza Pinckney, Catherine Littlefield Green, Esther DeBerdts Reed, and Martha Washington -- proving that without our exemplary women, the new country might never have survived. Social history at its best, *Founding Mothers* unveils the drive, determination, creative insight, and passion of the other patriots, the women who raised our nation. Roberts proves beyond a doubt that like every generation of American women that has followed, the founding mothers used the unique gifts of their gender -- courage, pluck, sadness, joy, energy, grace, sensitivity, and humor -- to do what women do best, put one foot in front of the other in remarkable circumstances and carry on.

2020 American Indian Youth Literature Young Adult Honor Book 2020 Notable Social Studies Trade Books for Young People, selected by National Council for the Social Studies (NCSS) and the Children's Book Council 2019 Best-Of Lists: Best YA Nonfiction of 2019 (Kirkus

Reviews) · Best Nonfiction of 2019 (School Library Journal) · Best Books for Teens (New York Public Library) · Best Informational Books for Older Readers (Chicago Public Library) Spanning more than 400 years, this classic bottom-up history examines the legacy of Indigenous peoples' resistance, resilience, and steadfast fight against imperialism. Going beyond the story of America as a country "discovered" by a few brave men in the "New World," Indigenous human rights advocate Roxanne Dunbar-Ortiz reveals the roles that settler colonialism and policies of American Indian genocide played in forming our national identity. The original academic text is fully adapted by renowned curriculum experts Debbie Reese and Jean Mendoza, for middle-grade and young adult readers to include discussion topics, archival images, original maps, recommendations for further reading, and other materials to encourage students, teachers, and general readers to think critically about their own place in history.
