Not all survivors are to be trusted. Not all the conspirators are dead. February: Within hours of the outbreak, the quarantine was sabotaged. Within days, the world was gripped by civil war. March: When the lights finally went out, billions were dead. Millions more had joined the ranks of the undead. May: Anglesey has become home to nearly ten thousand survivors from across the Atlantic. While there is still danger from the undead on the mainland, there is hope. Hope that the zombies might die, hope that the electricity

supply might be restored, and hope that more survivors will be found. Hope is not enough. Sergeant Branofski and Chester Carson venture into northern Wales to set up a network of safe houses that will provide a route to Anglesey for those still trapped in the wasteland. Though they find survivors, they discover something far worse. September: Nowhere is safe from the living dead, not even The Tower of London. The ancient fortress has become home to nearly a hundred people. Food is scarce and the undead are many. The survivors are doomed unless help can be found, but the only place it can come from is Anglesey. Eamonn Finnegan sets out alone to seek their salvation. He never reaches Wales. November: In her heart, Greta knows that Eamonn is dead, yet she has to

look for her lost love because he would look for her. Chester joins her in the futile quest to ensure the search doesn't cost Greta her life. Before their journey has barely begun, they discover an old foe that they thought was dead. Set on Anglesey and in London, near Wrexham and in Birmingham, while hope is fading for the last survivors of humanity.

Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned.

The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a

decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

The outbreak changed everything, but there are some bonds even the undead can't break. It's been six years since Pete Guinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in

Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead. As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge. Set in Broken Hill and beyond

as the Australian quarantine begins. As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.

Sixty years ago the world was wrecked during a terrible war. The soil was poisoned. The air became toxic. Billions died. Those who survived took refuge in great towered cities, and began constructing giant colony ships that would enable them to escape the ruined Earth. The work wasn't completed in their lifetime. The seas rose to swamp the diseased land, and lap against the city walls. Their descendants laboured on, and now the first of the spaceships is nearing completion. But these cities aren't dictatorships. An election is scheduled to choose a leader for this last exodus

of humanity. With twenty-four hours until voting is due to begin, two workers are murdered. It is the first serious crime in generations, and it is down to the young Constable Ely to solve it. The election must take place. The ships must be launched. Above all, production must come first. A dystopian detective novel from the author of Surviving The Evacuation 1: London, 2: Wasteland, 3: Family 4: Unsafe Haven, 5: Reunion, 6: Harvest, 7: Home. Zombies vs The Living Dead

When the terrorist attacks struck New York City on September 11, 2001, boat operators and waterfront workers quickly realized that they had the skills, the equipment, and the opportunity to take definite, immediate action in responding to the most significant destructive event in the

United States in decades. For many of them, they were "doing what needed to be done." American Dunkirk shows how people, many of whom were volunteers, mobilized rescue efforts in various improvised and spontaneous ways on that fateful date. Disaster experts James Kendra and Tricia Wachtendorf examine the efforts through fieldwork and interviews with many of the participants to understand the evacuation and its larger implications for the entire practice of disaster management. The authors ultimately explore how people—as individuals, groups, and formal organizations—pull together to respond to and recover from startling, destructive events. American Dunkirk asks, What can these people and lessons teach us about not only surviving but thriving in the face of

Provides the final report of the 9/11 Commission detailing their findings on the September 11 terrorist attacks.

Anglesey became a refuge for survivors from across the world, but living in the shadow of a decrepit nuclear power station was always a precarious existence. There is only one destination for their final exodus from Britain, but Belfast won't become their new home. There are fewer undead on the island of Ireland, but their numbers still count in the millions. With farming impossible, with the weather worsening, with ammunition exhausted, desperation turns to despair. All seems bleak, but the

Survivors don't know how truly desperate their situation is. During the chaos that ensued after the calamitous election, they misjudged the evidence. Their true enemy is still among them, and that enemy is about to act. Set nine months after the outbreak, in Britain and the island of Ireland, when humanity is at a crossroads. Either all will survive, or our species will die.

Before the Big Flood, Liz Green worried more about hiding detention notes, the activities of her rebellious friends, and mental illness than global climate change. She lives on the Texas Coastal Plain with her single mother, brilliant older brother, and socially awkward but clever younger brother. But now the water keeps rising, and her mother, Leah, has bigger problems than Liz. The

Suburban family, their neighbors, and billions of people all over the world are stuck between the rising seas and snarled land escape routes. The military and authorities are overwhelmed by the scope of the disaster. The wealthy and well-connected rush to expensive sea habitats. Ordinary people cannot expect to get help in time. You do not need to construct an actual raft to be Raft People, but you have to float. The family finds a website called "RaftPeople.com" which coordinates the efforts of ordinary people who plan to construct homemade crafts in order to float out of the disaster. They have to rely upon the natural talents of Liz's younger brother, Mark, a middle aged former female special forces diver named Shirley, and an eighty year old retired naval engineer. This

Small group of neighbors decides to become Raft People to escape before their Houston suburb floods.

Overwhelmed and ill prepared, they must struggle against nature and gangs of hoodlums. The military may provide some help, but urban guerrillas have chosen to use this opportunity to take out the government, and the rebels do not seem to mind some collateral damage. Can this group of children, adults, and old people make it to the "Up Above" before the sea rises?

Not all people died. Not all gave up hope. The outbreak was in February. By the end of November, Earth has become a hellish wasteland ravaged by the undead. Survivors from across the Atlantic seaboard took refuge on the Welsh island of Anglesey. Beset

by dangers from within, they departed to establish a new refuge in Belfast. Not all of them arrived. Six took the last plane on its last flight, but crashed in France. Expecting a sprinting battle through the ruins of Belfast, they packed light. With few weapons and barely any food, their chances of survival are slim. The chances of rescue are slimmer. There was no evacuation in France. No quarantine. No rationing. But there are zombies, and there are people who believe they, alone, are the last survivors of the old-world. So begins a frantic race against the undead, through the snow and storm ravaged ruins of Northern France.
