Tactics Time 2 presents 1001 fresh and instructive positions that Tim and Anthea have assembled from real amateur chess games, leaving you able to spot relatively simple patterns like a knight fork, an overloaded piece or a weak back rank.

Everyone knows that the way to improve at chess is to solve tactics puzzles. But why do tactics books make amateurs study grandmaster or master games? How useful is it to analyze games that are unreal for everyday chess players? In the real world of beginning and casual players openings are dubious, positions are messy, material is uneven, and cheap traps and oversights are occurring constantly. Most amateur games are won by rather primitive means, compared to the cool and fancy moves that masters need in order to gain victory. This book only takes positions from amateur games and puts them out there, warts and all. Tim Brennan and Andrea Carson have assembled thousands of games by everyday players, and selected the most instructive tactical examples. If you have limited time and energy to devote to chess, you want to study positions that are happening in games you yourself might have played!

Chess is 99% tactics. If this celebrated observation is true for the master, how much more so for beginners and casual players! If you want to win more games, nothing works better than training combinations. There are two types of books on tactics, those that introduce the concepts followed by some examples, and workbooks that contain numerous exercises. Chess masters and trainers Franco Masetti and Roberto Messa have done both: they explain the basic tactical ideas AND provide an enormous amount of exercises for each different theme. Masetti and Messa have created a great first tactics book. It teaches you how to: ~ identify weak spots in the position of your opponent ~ recognize patterns of combinations ~ visualize tricks. 1001 Chess Exercises for Beginners can also be used as a course text book, because only the most didactically productive exercises have been used.

A complete course for club and tournament players Chess is 99% tactics. This celebrated observation is not only true for beginners, but also for club players (Elo 1500 - 2000). If you want to win more games, nothing works better than training your combination skills. There are two types of books on tactics: those that introduce the concepts followed by some examples, and workbooks that contain lots of exercises. FIDE Master Frank Erwich has done both: he explains all the key tactical ideas AND provides an enormous amount of exercises for each different theme. Erwich has created a complete tactics book for ambitious club and tournament players. He takes you to the next level of identifying weak spots in the position of your opponent, recognizing patterns of combinations, visualizing tricks and calculating effectively. Erwich has also included a new and important element: tests that will improve your defensive skills. 1001 Chess Exercises for Club Players is not a freewheeling collection of puzzles. It serves as a course text book, because only the most didactically productive exercises are featured. Every chapter starts with easy examples, but don't worry: the level of difficulty will steadily increase.

The best advice for chess players who want to improve quickly is: get better at tactics! Simply because the vast majority of amateur games is decided through tactics you will immediately start beating more opponents when you improve your tactical skills. Experienced Russian Grandmaster Jakov Neishtadt has selected those examples from the games of masters that have the biggest instructional value for club players. In the first part of the book Neishstadt teaches a systematic course on the most important

tactical themes. The second part consist of an exam with hundreds of tests from real-life chess, in random order so as not to give unwelcome hints on how to solve them. The solutions are not just lists of moves, but include instructive prose.

Discusses a variety of chess tactics, including fork, skewer, opening and closing lines, and pawn promotion.

If only real life were like a book on chess tactics! But during a game you are on your own, and nobody will whisper in your ear that you have reached a position that is, in fact, a tactical puzzle and all you have to do is solve it. What you need, discovered Emmanuel Neiman in his long career as a chess trainer, is a way to read the signals which indicate that, somewhere in the position you are looking at, there is a tactical blow. What you need is a Chess Tactics Antenna! This trailblazing book by award-winning author Neiman provides a set of tools that enables the average club player to determine the moment he needs to look for win.

Susan Polgar became the first female Grandmaster at age 15—and it wasn't luck that got her there. Her use of tactics, combinations, and strategy during her games gave her the critical advantage she needed against her opponents. In Chess Tactics for Champions, Polgar gives insight into the kind of thinking that chess champions rely on while playing the game, specifically the ability to recognize patterns and combinations. With coauthor Paul Truong, Susan Polgar teaches the tactics she learned from her father, Laszlo Polgar, one of the world's best chess coaches. • Teaches players how to calculate the effect of a move in order to gain an edge over an opponent • For intermediate to advanced chess players of all ages
