The term Anglo-Saxon is popularly used for the language that was spoken and written by the Anglo-Saxons in England and eastern Scotland between at least the mid-5th century and the mid-12th century. In scholarly use, it is more commonly called Old English. The history of the Anglo-Saxons is the history of a cultural identity.

### Anglo-Saxons - Wikipedia

Anglo-Saxon, term used historically to describe any member of the Germanic peoples who, from the 5th century CE to the time of the Norman Conquest (1066), inhabited and ruled territories that are now in England and Wales. The peoples grouped together as Anglo-Saxons were not politically unified until the 9th century.

### Anglo-Saxon | Definition, History, Language, Literature ...

The Anglo-Saxons were migrants from northern Europe who settled in England in the fifth and sixth centuries. Initially comprising many small groups and divided into a number of kingdoms, the Anglo-Saxons were finally joined into a single political realm - the kingdom of England - during the reign of King Æthelstan (924-939).

### Who are Anglo-Saxons? - The New York Times

A short history of the Anglo-Saxons in Britain. Anglo-Saxon mercenaries had for many years fought in the Roman army in Britain, so they were not total strangers to the island. Their invasions were slow and piecemeal, and began even before the Roman legions departed. There is even some evidence to suggest that, initially, some Saxons were ...

### Anglo-Saxons: a brief history / Historical Association

The people we call Anglo-Saxons were actually immigrants from northern Germany and southern Scandinavia. Bede, a monk from Northumbria writing some centuries later, says that they were from some of the most powerful and warlike tribes in Germany. Bede names three of these tribes: the Angles, Saxons and Jutes.

### Anglo-Saxons (3) - Skuola.net

The Anglo-Saxons were Germanic invaders who came from what is now the Netherlands, Germany and Denmark. They were from the tribes known today as the Angles, Saxons, Frisians and Jutes and set up their own kingdoms in England.

A sweeping and original history of the Anglo-Saxons by national bestselling author Marc Morris. Sixteen hundred years ago Britain left the Roman Empire and swiftly fell into ruin. Grand cities and luxurious villas were deserted and left to crumble, and civil society collapsed into chaos. Into this violent and unstable world came foreign invaders from across the sea, and established themselves as its new masters. The Anglo-Saxons traces the turbulent history of these people across the next six centuries. It explains how their earliest rulers fought relentlessly against each other for glory and supremacy, and then were almost destroyed by the onslaught of the vikings. It explores how they abandoned their old gods for Christianity, established hundreds of churches and created dazzlingly intricate works of art. It charts the revival of towns and trade, and the origins of a familiar landscape of shires, boroughs and bishoprics. It is a tale of famous figures like King Offa, Alfred the Great and Edward the Confessor, but also features a host of lesser known characters - ambitious queens, revolutionary saints, intolerant monks and grasping nobles. Through their remarkable careers we see how a new society, a new culture and a single unified nation came into being. Drawing on a vast range of original evidence - chronicles, letters, archaeology and artefacts - renowned historian Marc Morris illuminates a period of history that is only dimly understood, separates the truth from the legend, and tells the extraordinary story of how the foundations of England were laid.

Traces the history of England from the end of Roman rule to the Norman Conquest

Daniel Donoghue shows how the earliest readers of Old English poems deployed a unique set of skills that enabled them to navigate a daunting task with apparent ease.

First published as part of the best-selling The Oxford Illustrated History of Britain, John Blair's Very Short Introduction to the Anglo-Saxon Age covers the emergence of the earliest English settlements to the Norman victory in 1066. This book is a brief introduction to the political, social, religious, and cultural history of Anglo-Saxon England. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

In the time of the great Anglo-Saxon kings like Alfred and Athelstan, thelred and Edmund Ironside, what was warfare really like how were the armies organized, how and why did they fight, how were the warriors armed and trained, and what was the Anglo-Saxon experience of war? As Paul Hill demonstrates in this compelling new study, documentary records and the growing body of archaeological evidence allows these questions to be answered with more authority than ever before. His broad, detailed and graphic account of the conduct of war in the Anglo-Saxon world in the unstable, violent centuries before the Norman Conquest will be illuminating reading for anyone who wants to learn about this key stage of medieval history.The role of violence and war in Anglo-Saxon society is explored, in particular the parts played by the king and the noblemen, and the means by which, in times of danger, the men of the fyrd were summoned to fight. The controversial subject of the Anglo-Saxon use of cavalry is also explored. Land and naval warfare are central sections of Paul Hills book, but he also covers the politics and diplomacy of warfare the conduct of negotiations, the taking of hostages and the use of treachery.The weapons and armor of the Anglo-Saxons are described the spears, the scramsaxes, axes, bows, swords, helmets, shields and mail that were employed in the close-quarter fighting of the day. Among the most valuable sections of the study are those dealing, in vivid detail, with actual experience of battle and siege with the brutal reality of combat as it is revealed by campaigns against the Danes, in the battles of Ashdown, Maldon and Stamford Bridge, and sieges at Reading and Rochester.

Presents the Anglo-Saxon period of English history from the fifth century up to the late eleventh century, covering such events as the spread of Christianity, the invasions of the Vikings, the composition of Beowulf, and the Battle of Hastings.

Running from about AD 400 to the 1100s, this book shows the Anglo-Saxons as formative in the history of England and Europe. The society, inspired by the world of the Old English poem 'Beowulf', saw England become the first European country to conduct its affairs in its own language.

The culture of early Anglo-Saxon England explored from an inter-disciplinary perspective.

What happened to the reputation of the Anglo-Saxons after the famous Battle of Hastings in 1066? How were they portrayed by historians, politicians and artists over the centuries? Not long after the Norman invasion Williams of Malmesbury viewed it as an unmitigated disaster, while Geoffrey of Monmouth cast the Anglo-Saxons as cruel invaders and resurrected the old Arthurian myths. Later, Elizabethan historians saved Anglo-Saxon manuscripts for posterity and the English Civil War saw the overtly political use of a sense of Anglo-Saxonism. This was followed by an earnest attempt by scholars to understand the Old English language. It was an era which saw the rise of the first real histories of England, with mixed results for the Anglo-Saxons. The notions of Germanism and an Anglo-Saxon 'race' in both England and America preceded the Victorian age where politics, art and culture began to reflect gratitude towards the Anglo-Saxons. In conclusion the author asks how the Anglo-Saxons are viewed by the modern English people. Book jacket.
