The Centaur is a modern retelling of the legend of Chiron, the noblest and wisest of the centaurs, who, painfully wounded yet unable to die, gave up his immortality on behalf of Prometheus.

In the retelling, Olympus becomes small-town Olinger High School; Chiron is George Caldwell, a science teacher there; and Prometheus is Caldwell's fifteen-year-old son, Peter. Brilliantly conflating the author's remembered past with tales from Greek mythology, John
