Harry Potter Culture

Presents a psychological look at the Harry Potter books, examining such topics as what students learn from Hogwarts classes, what Harry and Fawkes the phoenix have in common, and mental illness in the wizarding world.

Dear witch or wizard, Have you read and reread the "Harry Potter" books? Are you someone who can quote the movies by heart? Do you still ever wonder when you will get your acceptance letter into Hogwarts School of Witchcraft and Wizardry? Me too. As a diehard and proud Potterhead, my heart warms every time I hear the main theme music, "Hedwig's theme." Like many of you, I

# Download Free The Psychology Of Harry Potter

have been sorted on Pottermore (House Slytherin) and I have my wand (Willow, 10-inch unicorn hair) and robes. And for me, like for so many of you, the "Harry Potter" series has been life changing. I always wanted to write a book specific to Harry Potter, my favorite fandom, and one, which undoubtedly has influenced me, the most. I decided that I would like to write a self-help book for you, my fellow Harry Potter fans to help you better manage you anxiety, depression, trauma, insecurity, and other difficulties. I hope that you will join me on an enchanting exploration how "Harry Potter" series can help us heal and find the magic in our own lives. The proceeds of this book will be donated to mental health charities, such as Crisis Text Line and RAINN, as well as Lumos and the Good

Program to get and keep you off the couch. Bravo, for another exercising zealot who has written a book that should be read on your elliptical or stationary bike. He pushed me to go farther on a sleepy Sunday." - John J. Ratey, M.D., author of Spark: The Revolutionary New Science in Exercise and the Brain, and co-author of Driven to Distraction

“ Kenrick writes like a dream. ” —Robert Sapolsky, Professor of Biology and Neurology, Stanford University; author of A Primate ' s Memoir and Why Zebras Don ' t Get Ulcers What do sex and murder have to do with the meaning of life?

# Download Free The Psychology Of Harry Potter

Everything. In *Sex, Murder, and the Meaning of Life*, social psychologist Douglas Kenrick exposes the selfish, animalistic underside of human nature, and shows how it is intimately connected to our greatest and most selfless achievements. Masterfully integrating cognitive science, evolutionary psychology, and complexity theory, this intriguing book paints a comprehensive picture of the principles that govern our lives. As Kenrick divulges, beneath our civilized veneer, human beings are a lot like howling hyenas and barking baboons, with heads full of homicidal tendencies and sexual fantasies. But, in his view, many ingrained, apparently irrational behaviors—such as inclinations to one-night stands, racial prejudices, and conspicuous consumption—ultimately manifest

# Download Free The Psychology Of Harry Potter

what he calls “Deep Rationality. ”

Although our heads are full of simple selfish biases that evolved to help our ancestors survive, modern human beings are anything but simple and selfish cavemen. Kenrick argues that simple and selfish mental mechanisms we inherited from our ancestors ultimately give rise to the multifaceted social lives that we humans lead today, and to the most positive features of humanity, including generosity, artistic creativity, love, and familial bonds. And out of those simple mechanisms emerge all the complexities of society, including international conflicts and global economic markets. By exploring the nuance of social psychology and the surprising results of his own research, Kenrick offers a detailed picture of what makes us caring, creative, and

# Download Free The Psychology Of Harry Potter

complex—that is, fully human.

Illuminated with stories from Kenrick ' s own colorful experiences -- from his criminally inclined

shantytown Irish relatives, his own multiple high school expulsions, broken marriages, and homicidal fantasies, to his eventual success as an evolutionary psychologist and loving father of two boys separated by 26 years -- this book is an exploration of our mental biases and failures, and our mind ' s great successes.

Idiosyncratic, controversial, and fascinating, *Sex, Murder, and the Meaning of Life* uncovers the pitfalls and promise of our biological inheritance.

"This book will be a valuable resource for those conducting research focused on trauma- related sleep disturbances

# Download Free The Psychology Of Harry Potter

and nightmares, and for clinicians working with clients with these problems." --Heidi S. Resnick, PhD, Medical University of South Carolina

"Extremely thoughtful and comprehensive....Dr. Davis does a superb job of providing clear, evidence-based treatment with many helpful case examples included. It is a must read for any therapist who treats patients with PTSD." --Sherry A. Falsetti, PhD, University of Illinois College of Medicine Treating Post-Trauma Nightmares presents the only interdisciplinary treatment that brings together literature, theory, and techniques from sleep medicine and psychological perspectives: Exposure, Relaxation, and Rescripting Therapy (ERRT). This groundbreaking treatment specifically targets chronic nightmares experienced by trauma-

# Download Free The Psychology Of Harry Potter

exposed persons. An empirically based book, *Treating Post-Trauma Nightmares* discusses the nature and characteristics of trauma-related nightmares, and serves as a guide to clinicians treating patients with PTSD or other trauma- and sleep-related disorders. Davis explores and outlines the treatment process, step-by-step, for those interested in the utilization and evaluation of ERRT. Key Features: Delineates important assessment considerations, providing guidance in the assessment of traumatic events and differential diagnosis of sleep events Includes a section on treatment considerations, addressing potential difficulties therapists or clients may encounter, and provides suggestions for handling these situations Features a complete participant manual that summarizes all components of the

treatments explained in the book

## Examination Of The Boy

The tropes and themes of J. K.

Rowling's massively popular series are interpreted within the context of its audience.

Urging readers of the Harry Potter series to dig deeper than wizards, boggarts, and dementors, the authors of this unique guide collect the musings of seventeen philosophers on the series, who cover a wide range of Potter-related philosophical issues, including the difference between good and evil, the ethics of sorcery, and Aristotle's own school for wizards. Original.

This thoroughly revised edition includes updated essays on cultural themes and literary analysis, and its

# Download Free The Psychology Of Harry Potter

new essays analyze the full scope of the seven-book series as both pop cultural phenomenon and as a set of literary texts. Critical Perspectives on Harry Potter, Second Edition draws on a wider range of intellectual traditions to explore the texts, including moral-theological analysis, psychoanalytic perspectives, and philosophy of technology. The Harry Potter novels engage the social, cultural, and psychological preoccupations of our times, and Critical Perspectives on Harry Potter, Second Edition examines these worlds of consciousness and culture, ultimately revealing how modern anxieties and fixations are reflected in these powerful texts. ("DISCLAIMER: This book is not authorized, approved, licensed, or endorsed by J.K. Rowling, Warner Bros. Entertainment Inc., or anyone
