In 1978 Julian Richer, then aged just nineteen, opened his first shop near London Bridge. For over twenty years this shop has been listed in the Guinness Book of Records as having the highest sales per square foot of any retail outlet in the world, and the company as a whole, with its fifty-three stores nationwide and huge online presence, has become Britain's favourite retailer of TV and hi-fi equipment. What lies behind this extraordinary success? For Julian, the answer is simple: throughout his career he has focussed relentlessly on putting people – both staff and customers – right at the centre of his business. And in *The Richer Way*, he offers a supremely practical guide to how others can follow suit. He explains how to motivate employees and measure their progress. He establishes how to balance company discipline with individual autonomy. He explores what 'customer service' should really involve. Above all, he points the way to creating an open, friendly and flexible culture that will not only attract the best people but also offer the greatest chance of business success. Packed with straightforward, common-sense advice, *The Richer Way* will prove essential reading for all organisations, whatever their nature and size.

_____ *A road-map for a kinder, fairer capitalism that is fit for the 21st century*
Financial Times Book of the Month 'The founder of Richer Sounds is one of the finest entrepreneurs we have.' Archie Norman, chairman of Marks & Spencer _____

Capitalism has lost its way. Every week brings fresh news stories about businesses exploiting their staff, avoiding their taxes, and ripping off their customers. Every week, public anger at the system grows. Now, one of Britain's foremost entrepreneurs intervenes to make the case for putting business back firmly in the service of society, and setting out on a new path to a kinder, fairer form of capitalism. Drawing on four decades of hands-on management experience, the founder of Richer Sounds argues that ethically run businesses are invariably more efficient, more motivated and more innovative than those that care only about the bottom line. He uncovers the simple tools that the best leaders use to make their businesses fair, revealing how others can follow suit. And he also delves into the big questions that modern capitalism has to answer if it is to survive and to thrive.

Striking out on your own for the first time is exhilarating. But in a culture full of bad advice, predatory banks, and splurge-now-pay-later temptations, it can also be extremely dangerous—leading you to make financial decisions that could hurt you for years to come. Combine this with a slumped economy, mounds of student loans, and dubious examples from reality TV stars to politicians to your own parents, and it's no wonder so many twenty-somethings are struggling. Twenty-three-year-old Zac Bissonnette—the author of *Debt-Free U*—knows exactly what you're going through. He demystifies the many traps young people fall victim to in their post-college years. He offers fresh insights on everything from job hunting to buying a car to saving for retirement that will give you a foundation for a secure, stable, and happy life. In the process, he reveals why FICO scores are overrated, online job applications are a waste of time, car loans are for suckers, and credit card rewards are a scam. With detours to discuss wine connoisseurs, *Really Broke Housewives*, and Lenny Dykstra, Zac shows you how to make better choices today so you can be richer, smarter (and better-looking!) for years to come.

When you honor, love, and value yourself, you accept all the abundance the universe has in store for you. By living the principles within these 72 inspiring lessons, Fabienne has created an extraordinary life for herself and her family. Her advice—which comes from real-world experiences in both her personal life and her work with clients—is universally beneficial and can be applied in anyone's life. With love, appreciation, and compassion, Fabienne encourages you to move forward in your own journey, so you too can have a richer, fuller, more abundant life.

A revolution is under way. Within a generation, more households will be supported by women than by men. Journalist Liza Mundy takes us to the frontier of this new economic order: she shows us why this flip is inevitable, what painful adjustments will have to be made along the way, and how both men and women will feel surprisingly liberated in the end. Couples today are debating who must assume the responsibility of primary earner and who gets the freedom of being the slow track partner. With more men choosing to stay home, Mundy shows how that lifestyle has achieved a higher status, and the ways males have found to recover their masculinity. And the revolution is global: Mundy takes us from Japan to Denmark to show how both sexes are adapting as the marriage market has turned into a giant free-for-all, with men and women at different stages of this transformation finding partners who match their expectations.--From publisher description.

A follow-up to the book *The Richer Way*, this work draws on the author's 20 years of experience in running a wide range of businesses, to give his vision of leadership and the leader's task in

'Genius ... I couldn't put it down, I read it from cover to cover' CHRIS EVANS If the most precious thing we have is time, the most highly prized expertise should be knowing how to spend it well. Yet, busier than ever, do we really understand which experiences bring us joy and success, and which don't? After all, we've learned how to spot the difference between junk foods and superfoods. When you discover the equivalent rules for time, it'll change how you live your life. In his first book since the era-defining *Stuffocation*, cultural commentator and bestselling author James Wallman investigates the persistent problem of wasted, unfulfilling time, and finds a powerful answer — a revolutionary approach to life based on the latest scientific discoveries. At its heart is the inspiring revelation that, when you play by the new rules, you can actively choose better experiences. Bursting with original stories, fresh takes on tales you thought you knew, and insights from psychology, economics, and culture, *Time and How to Spend It* reveals a seven-point checklist that'll help you avoid empty experiences, and fill your free hours with exciting and enriching ones instead. This life-enhancing book will show you how to be the hero or heroine of your own story. You'll learn how to avoid WMDs (weapons of mass distraction), and discover the roads that lead to flow. You'll get more out of every minute and every day; your weekends will fizz and your holidays will be deeply nourishing. You'll not only be living the good life, but building a truly great life.

The best financial planner Michelle Singletary ever knew was Big Mama, her grandmother. Big Mama raised Michelle and her four brothers and sisters on a salary that never reached more than \$13,000 a year. Yet at her death, Big Mama owned her own home, had paid off a car loan, and had a beautiful collection of Sunday-go-to-meeting church hats and a savings account that supplemented her Social Security check and small pension. Most important, she had taught Michelle “7 Money Mantras for a Richer Life.” Those mantras serve as the inspiration for this straight-talking book of practical personal financial advice that really works. The 7 Money Mantras are: 1. If it's on your ass, it's not an asset! 2. Is this a need or is it a want? 3. Sweat the small stuff. 4. Cash is better than credit. 5. Keep it simple. 6. Priorities lead to prosperity. 7. Enough is enough. Michelle Singletary is a syndicated columnist for *The Washington Post* whose popular personal finance column appears in more than 120 newspapers. She's also a mother of three children who understands what it's like to live on a budget. In a plainspoken, sassy, no-nonsense voice, Michelle provides answers to the financial issues that confront almost every household: how to teach children the value of money; how to address money issues in a relationship or marriage; household saving tips; getting the best loans; and much more. “This book is about saving enough money to have choices,” she writes. “It's about feeling free to be cheap if you can't afford to buy a ton of gifts at Christmas. It's about eliminating wasteful spend-ing so you can begin to save and invest. It's full of uncommon commonsense lessons and guidance on the way people should use their money.” With humor and down-home financial wisdom, Michelle Singletary offers practical and realistic advice that will help you live well with the money you have. Michelle Singletary on . . . Romance and Money “It's okay to say: ‘Honey, I love you and everything, but if you need money, ask your mama.’” Credit Cards “We are minimizing our financial potential by making minimum credit-card payments.” Car Buying “If you want to save money, keep your car until you're on a first-name basis with the local tow-truck drivers.” Leasing a Car “You, too, can drive a car you can't afford and then have to give it back. It's crazy.” Gift Giving “Generosity isn't about how much you spend. It's about how much thought you put into the gift.” Penny Pinching “I once bought a stick-shift car because it was \$1,000 cheaper than the automatic in the same model. There was just one little problem. I couldn't drive a stick-shift. But at least I
