Don Quixote (1604) is a comic picaresque novel about a retired country gentleman who has become obsessed with reading stories about chivalry, which he takes to be literally true. Though others think he has lost his mind, he sets out on a quest for adventure and glory with the dull-witted Sancho. The novel is both a satire of chivalry and a philosophical study of the nature of deception.

In a novel based on the life and death of Eva Peron, her husband, Argentine dictator Juan Peron, has her body preserved after her death and has her enshrined as Saint Evita, but his enemies steal the body and her corpse embarks on a bizarre odyssey

The consolidation of law and the development of legal writing during Spain's Golden Age not only helped that country become a

modern state but also affected its great literature. In this fascinating book, Roberto Gonzalez Echevarria explores the works of Cervantes, showing how his representations of love were inspired by examples of human deviance and desire culled from legal discourse.

Soon to be a major motion picture starring Matthew McConaughey and Idris Elba “An impressive work of mythic magnitude that may turn out to be Stephen King’s greatest literary achievement” (The Atlanta Journal-Constitution), *The Gunslinger* is the first volume in the epic *Dark Tower* Series. A #1 national bestseller, *The Gunslinger* introduces readers to one of Stephen King’s most powerful creations, Roland of Gilead: *The Last Gunslinger*. He is a haunting figure, a loner on a spellbinding journey into good and

evil. In his desolate world, which mirrors our own in frightening ways, Roland tracks The Man in Black, encounters an enticing woman named Alice, and begins a friendship with the boy from New York named Jake. Inspired in part by the Robert Browning narrative poem, "Childe Roland to the Dark Tower Came," The Gunslinger is "a compelling whirlpool of a story that draws one irretrievable to its center" (Milwaukee Sentinel). It is "brilliant and fresh...and will leave you panting for more" (Booklist).

A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to

be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. *I AM MALALA* is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. *I AM MALALA* will make you believe in the power of

one person's voice to inspire change in the world.

One of Woolf's most experimental novels, *The Waves* presents six characters in monologue - from morning until night, from childhood into old age - against a background of the sea. The result is a glorious chorus of voices that exists not to remark on the passing of events but to celebrate the connection between its various individual parts.

The *Historia del Nuevo Mundo*, set down by Father Bernabe Cobo during the first half of the seventeenth century, represents a singularly valuable source on Inca culture. Working directly from

the original document, Roland Hamilton has translated that part of Cobo's massive manuscripts that focuses on the history of the kingdom of Peru. The volume includes a general account of the aspect, character, and dress of the Indians as well as a superb treatise on the Incas—their legends, history, and social institutions.

Historical novel that retells the story of Hernâan Cortâes and Doãna Marina, his interpreter and mistress during the conquest of Mexico.

Galileo never set foot on the Iberian Peninsula, yet, as Enrique García Santo-Tomás unfolds in *The Refracted Muse*, the news of his work with telescopes brought him to surprising prominence—not just among Spaniards working in the developing science of optometry but among creative writers as well. While Spain is often

thought to have taken little notice of the Scientific Revolution, García Santo-Tomás tells a different story, one that reveals Golden Age Spanish literature to be in close dialogue with the New Science. Drawing on the work of writers such as Cervantes, Lope de Vega, Calderón de la Barca, and Quevedo, he helps us trace the influence of science and discovery on the rapidly developing and highly playful genre of the novel. Indeed, García Santo-Tomás makes a strong case that the rise of the novel cannot be fully understood without taking into account its relationship to the scientific discoveries of the period.
