The Star Trek: The Next Generation® Technical Manual, written by Rick Sternbach and Michael Okuda, the technical advisors to Star Trek: The Next Generation, provides a comprehensive schematization of a Galaxy-class starship. From the bridge to the shuttlebays, from the transporter room to crews' quarters, this book provides a never-before-seen glimpse at the inner, intricate workings of the most incredible starship ever conceived. Full of diagrams, technical schematics, and ship's plans, the Star Trek: The Next Generation Technical Manual also takes a detailed look at the principles behind Star Trek®'s awesome technology -- from phasers to warp drive to the incredible holodeck.

"With an appendix containing a full analysis of the debts of the United States, the several states, municipalities etc. Also statements of street railway and traction companies, industrial corporations, etc." (statement omitted on later vols.).

Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.
