This book is designed to present, in one convenient source, comments published in periodicals about 325 automobile models manufactured since 1987 on a model-by-model basis. These periodicals range from general interest to specialized sources as well as repair manuals and other publications related to the individual models.

ORIGINAL DESCRIPTION (1961): " ...The rampant lion of Peugeot is really no newcomer to America. Modern Peugeot fans tend to date their pleasure from a March day in 1958, when the New York Motor Show opened its doors. A key display, to their way of thinking, was that of Peugeot; these were the first of the renowned 403 models to reach American hands on regular shipment from the French factory. But those "pioneer" buyers who thought themselves the first to recognize a worthy newcomer back in 1958 shouldn't take their bows too soon. That year was really Act II in the tale of Peugeot in America. The initial new world conquests carry much earlier datelines. The lion's first invasion dates clear back to 1913, when the Peugeot name was suddenly emblazoned in American motor sports headlines by a French race driver named Jules Goux.... .... If you want a symbol for Peugeot, apart from that golden lion, try a family tree. Both the management and the product draw their special qualities from an unbroken lineage rooted in an era that never even heard of the automobile..."

The ABA Journal serves the legal profession. Qualified recipients are lawyers and judges, law students, law librarians and associate members of the American Bar Association.

" ... For enthusiasts of every age, here is a gallery of great cars from the beginning to the present day. Each of these machines has its own claim to fame—some for fabulous styling, some for technical developments that changed the course of automotive history, some for racing prowess, and some for sheer "personality." For each chapter there is a beautiful full-page color portrait of the car in its proper setting. The text is no mere description of the machines. With authority, enthusiasm and wit the author traces the history of each make, illuminating the characters of both cars and men with spine-tingling racing adventures and inside anecdotes. While the story of each make is complete in itself and may be read alone, the book as a whole provides a panorama of automotive history. The story of cars is, of course, also the story of men—some of the most colorful figures of the modern world—drivers such as Nuvolari, Oldfield, Fangio: engineers such as Bugatti, Ford, and Porsche. But cars are the real heroes of this book; in these words and pictures they emerge, not as mere collections of nuts and bolts and sheet metal, but as creatures with a kind of life of their own. A life that embodies the urge to freedom and adventure, the pride and

love of beauty of both their creators and their users.” (New York - 1960)
