Covers receipts and expenditures of appropriations and other funds.

In these fifteen remarkable stories, M.F.K. Fisher, one of the most admired writers of our time, embraces the coming of old age. With a saint to guide us, she writes, perhaps we can accept in a loving way "the inevitable visits of a possibly nagging harpy like Sister Age" But in the stories, it is the human strength in the unavoidable encounter with the end of life that Fisher dramatizes so powerfully. Other themes—the importance of witnessing death, the marvelous resilience of the old, the passing of vanity—are all explored with insight, sympathy and, often, a sly wit.

Data Science is booming thanks to R and Python, but Java brings the robustness, convenience, and ability to scale critical to today's data science applications. With this practical book, Java software engineers looking to add data science skills will take a logical journey through the data science pipeline. Author Michael Brzustowicz explains the basic math theory behind each step of the data science process, as well as how to apply these concepts with Java. You'll learn the critical roles that data IO, linear algebra, statistics, data operations, learning and prediction, and Hadoop MapReduce play in the process. Throughout this book, you'll find code examples you can use in your applications. Examine methods for obtaining, cleaning, and arranging data into its purest form Understand the matrix structure that your data should take Learn basic concepts for testing the origin and validity of data Transform your data into stable and usable numerical values Understand supervised and unsupervised learning algorithms, and methods for evaluating their success Get up and running with MapReduce, using customized components suitable for data science algorithms

"Microsoft's last Windows version, the April 2018 Update, is a glorious Santa sack full of new features and refinements. What's still not included, though, is a single page of printed instructions. Fortunately, David Pogue is back to help you make sense of it all--with humor, authority, and 500 illustrations."--Page 4 of cover.

Fitness on a Swing Set... Exercise with a playground swing is FUN and EFFECTIVE!!If you need a challenge, you need this fitness book! You get nearly 50 exercises that are very effective. The exercises are performed on a playground swing. Each chapter focuses on a different body area. There is also a chapter of stretching exercises. A great exercise book for anyone who enjoys outdoor exercise! This unique fitness book is filled with exercises that range in difficulty. Some of these exercises will prove to be a challenge to even the most fit. Use these exercises to gain strength, lose weight, and become more fit. Be the first in your group of friends to accept the challenge and let the results speak for themselves! Many of the swing exercises in this exercise book were part of Karen Goeller's gymnastics training programs. You will gain strength as you become accustomed to supporting your own body weight. Other exercises are the more traditional exercises. You can relax at the end of your workout with some of the stretching exercises. How much would you pay a fitness expert to teach you nearly 50 new exercises? If you hired the author it would cost thousands of dollars! You will get all of these effective exercises and be able to create so many new workouts that it will feel like you hired a fitness expert. And you'll reach a remarkable fitness level. People will ask your secret. We hope you'll tell them! Most people reviewing this book will find several exercises they could never have imagined. Wait until you see the exercises performed on a playground swing. You will not believe your eyes! REVIEWS...I was so impressed. Loved the stretching exercises. These exercises will aid in maintaining fitness and challenge the already fit. Can't wait to use some of these ideas.M. Soto-Staniszewski, Coach and Teacher, NY--Author's website."My children and I are always at the park. When I showed my children the book and then did the exercises at the park, they thought it was a blast!"DM, Secondary Physical Education Teacher, FL--Author's website.
